## THIS WEEK'S STORIES:

Stories are numbered; scroll down for stories of interest.

SECTION 1: Getting There: Flights, Airlines, Airports, Cruises, & Weather

## **1. Flight Ban Story**

Our story on the ban on flights from the United States and Canada to SXM which starts Tuesday 3/17 and will run

for a projected two weeks appears in the main news section; it's the lead story there.

### 2. Arriving Air France Plane Put on Lockdown

An arriving Air France/Joon aircraft from Paris was put on lockdown here late last week. SXM carefully checks passenger manifest information for incoming flights and cruise ships, and saw that this aircraft contained nationals from Germany currently not authorized to travel to SXM.

After ensuring that the passengers on the plane were healthy, SXM denied entry to the Germans and told Air France to keep them on the plane and go back to Paris.

## **3. Airlines Ramp Up Antivirals, Notify Customers**

Last week, we reported that airlines were planning to increase antiviral activity on their aircraft. This past week, that was done, and the airlines started notifying their passengers about the new procedures by midweek.

Nonetheless, the number of people traveling on US commercial airlines has plummeted, as business travel and leisure travel both collapse thanks to the threat of the coronavirus. Those passengers who have been traveling -- most, apparently, returning home -- have been wearing facemasks and some have been wearing gloves.

Airlines of necessity are cutting flights temporarily and are expected to lay off thousands of employees and ground many hundreds of planes across the country.

### 4. How to Lower Your Airfare

In the current fare environment, it may be difficult to get airlines to change fares if the fare currently offered for your flight is less than what you paid. The good news — if there is any — is that you can now -- usually -- cancel the old fare without charge, then buy new tickets at the lower price. That could save you hundreds of dollars over your original ticket prices. You also won't lose seats, since so few people are currently flying.

# 5. SkyMed May Evacuate Travelers with Corona Virus (Caribbean, USA, etc.) ==== UPDATED====

Late last week, SkyMed, the medical evacuation membership company we have long recommended to our readers, said that it will medically evacuate SkyMed members who contract the coronavirus from nations throughout the SkyMed universe, which is the United States, Canada, Mexico, Bermuda, the Bahamas, and all the nations of the Caribbean. This includes cruise ships with stops in this area.Evacuations are contingent on the ability of destination hospitals and municipalities to accept coronavirus patients.Here is exact information about this from SkyMed:

## Q. Is the COVID-19 virus covered under Medical Condition Exclusions in the SkyMed Member Service Agreement?

A. The COVID-19 virus is currently classified by the CDC as a Biosafety Class Level 2 and is NOT excluded in the SkyMed Member Service Agreement. The SkyMed Member Service Agreement states 'Medical transport services will not be provided to any member who has a diagnosis of, or is suspected of having, a Biosafety Class Level 3 (or above) pathogen as classified by CDC.'

#### Q. Can SkyMed evacuate a member diagnosed with COVID-19?

A. **YES**, it is possible for a SkyMed member diagnosed with COVID-19 to be air evacuated to their home hospital transport preference. The receiving hospital must pre-approve acceptance before the flight is dispatched. Our member must be declared 'Fit to Fly' by their attending physician and the Fit to Fly form submitted to SkyMed's Medical Director. It is important to understand that it might not be a viable option

given current travel bans and restrictions. Most City/State/Provincial government authorities are currently blocking entrance of infected patients and this is an overriding situation beyond SkyMed's control.

We have identified several air ambulance companies that will contract with us to transport COVID-19 patients. They are ALL required to obtain prior approval on all movements through the proper channels and follow all quarantine requirements imposed by local and receiving governments. They cannot, knowingly, transport a patient with COVID-19 (or other known exposures) without Health & Human Services (HHS) approval.

# Q. If a member is located in an area where local governments have enacted COVID-19 related travel restrictions would an air evacuation be possible for other emergencies like a heart attack or stroke?

A. If our SkyMed Member is declared Fit to Fly by their attending physician, SkyMed believes it will be possible to conduct an air evacuation. Because there are new developments daily related to the COVID-19 disease circumstances may change without notice. Every situation will be unique to the area our Member is located in and SkyMed must adhere to all laws, at all levels of all governments, that we are working within.

SkyMed will take things literally one day at a time and one Member at a time. We will do everything possible to assist and inform our Members.

**UPDATE** -- Although *commercial* flights to / SXM have been temporarily banned, *medical evacuation* flights are being allowed as always.

## **6. Cruise Lines Suspending Operations**

Many cruise lines — some of which received huge adverse publicity for confirmed coronavirus cases found on their ships — in recent days have been facing massive cancellations and huge drops in future reservations and as a result, have suspended operations for 30 days, though the suspension could easily be extended further.

Here are the details.

## 7. Boeing Shares Plunge Over 737 MAX Wiring Problem

Even before the stock market fell into the worst of its current drop, shares of Boeing plunged when the FAA rejected a Boeing plea to let it do a simple fix for a wiring problem found in its 737 Max aircraft. That wiring problem, the FAA said, could cause electrical issues aboard the problem-plagued plane that could cause the aircraft to fall out of the sky.Boeing wanted to make what it thought would be a simple (and quick) fix but the FAA rejected that solution and is expected to require Boeing to execute changes that are bit more complicated and time-consuming but also effective.

Boeing has wanted to get the 737 Max back into the air as soon as possible but in the current environment nobody really needs it.

Here is the latest on this.

### 8. Where to Find Current SXM Weather Info

You'll find detailed observations and forecasts by visiting our main SXM website, <u>www.everythingsxm.com</u>, and clicking either of the weather observations at the top of the page.

The four sources of current weather info, beyond the two above, are:

## 1) <u>Crown Weather Services</u> whose very inexpensive subscription service is, we feel, the best in the business.

2) Our "Weather" page at <u>www.everythingsxm.com</u> -- it has current satellite images and radar loops and now all the latest NHC weather forecasts, outlooks, and advisories as well. There are now also active weather widgets on the site's home page.

3) Our <u>Everything SXM Facebook Group</u>, which publishes the latest advisories, watches, and warnings when SXM is threatened by any storms.

4) On or off the island, listen to Island 92 -- 91.9FM or see <u>www.island92.com</u>. They report island warnings at once and know exactly what's going on. You can listen on the web anytime through live streaming.

5) For a quick look at weather radar exactly where you are or where you're going, try the My Radar phone app or My Radar for Windows -- excellent programs.

Get a quick, current satellite look at the Atlantic basin anytime: <u>http://www.goes.noaa.gov/GIFS/ATWV.JPG</u> .

N. B.: Again...Never rely on any website if you're in the path of a storm; always heed warnings from local authorities.

#### **Download your own NHC Hurricane Chart:**

Years ago, before we were all saturated with weather information from cable TV to local (redundant and repetitive) news and forecasts plus weather updates and bulletins on our smart phones, gas stations and television stations offered printed hurricane tracking charts so people at home could try to figure out for themselves whether they were about to get slammed by the latest hurricane.

We haven't seen hurricane tracking chart handouts for years, but if you want one they are easy to get.

The exact charts used by the National Hurricane Center (NHC) are available for download from the NHC <u>here</u>. Select "Atlantic" and you're good to go. You can print out the chart and use it repeatedly, or simply print a bunch of them and use one for each storm that may approach an area of interest -- like, SXM. Bear in mind that this hurricane season may well be frontloaded — so you might want to print a few of these now and *not* save doing that for later.

### **11. Buying a Condo in SXM? Here's Important Info**

Just before Thanksgiving 2018, working with Arun Jagtiani of Island Real Estate Team, we put together and conducted an SXM Relocation Seminar for dozens of attentive attendees at Emilio's Restaurant at the Emilio Wilson estate near Philipsburg.

Many of you have asked whether it would be possible for you to see video we made of our relocation seminar.

Although we do intend to put on future relocation seminars, the video of our November '18 seminar is available online to anyone interested in buying on SXM, whether for a vacation home, retirement home, income property, or anything else. Lots of outstanding info was communicated during this excellent seminar, and another is now in the early planning stages.

See the video here.

## 13. St. Maarten Bans Flights from USA, Canada for Two Weeks

The only major airport on SXM, Princess Juliana SXM Airport on the Dutch side, has banned flights from the USA and Canada for two weeks effective Tuesday, March 17.Over the weekend, the Dutch side government said that it was in talks with air carriers to make sure that arrangements were made to enable visitors from the US and Canada to return home on their respective carriers.

What the carriers did, however, is simply cancel the return flights of thousands of visitors from the US without informing them quickly about what their options may be for returning home. As a result, passengers currently in SXM have been spending hours on the phone trying to contact airlines already besieged by calls for cancellations from people around the world. Some have gone to SXM Airport to join the crowds there in hopes of making some kind of arrangements at check-in counters — an often futile pursuit since it's still high season and most planes are already loaded.

This morning (Monday), Delta stepped up and announced its schedule of flights going to SXM empty in order to return stranded passengers from all airlines home. Some flights sold out quickly and more may be added. American cancelled all flights through May 6 but then added some back. We have heard nothing from United or Jet Blue, which cancelled its return flights to the US on Monday and as of our delayed presstime on Monday evening, had still not notified its passengers of what it's doing to help them - if anything.

For the most complete, current information on this situation please see the "bans" thread in our <u>Everything SXM</u> <u>Facebook Group</u>, where you will also find an abundance of additional useful information.

# **14. SXM Continues to Oversee Who Can Enter the Country**

As noted earlier, the Dutch side continues to oversee who can enter the country by reviewing passenger manifests from any cruise ship still visiting here and also all incoming flights.

Tuesday's cancellation of all incoming flights from the US and Canada and incoming cruise ships will temporarily relieve some of the pressure on this, but the policing appears to have worked quite well so far.

There are still no cases of coronavirus on the Dutch side of the island in the two cases (a transient couple trying to go from St. Barth to Paris by way of SXM Airport) appear to be virtually recovered on the French side. One has already tested negative for the virus and the other will likely do so shortly. Their cases were deemed not worrisome by French side medical authorities.

## **15. French Side Bars, Restaurants Ordered Closed; Dutch Next?**

All French Side bars and restaurants will close Monday night at midnight and will stay shuttered until further notice, following an edict from the French government.

No such decision has been made on the Dutch side, though a similar closure would not be surprising. One would hope that restaurants affiliated with resorts would be allowed to continue to provide take-out to resort guests.

When anything further happens, we will report it at once in a new thread in our <u>Everything SXM Facebook Group</u>. That FB site should also be your main source of information concerning flights home and other news concerning coronavirus and its relation to travel to or from SXM.

## **16. SXM Festival Cancelled Sunday**

SXM Festival, an electronic music extravaganza based in fields near Happy Bay on the French side, but with events on both sides of the island, proceeded as planned late last week and early during the weekend but on Saturday it was announced it would be canceled effective Sunday due to coronavirus concerns.

### **17. Bankie Banx Moonsplash Underway**

Bankie Banx Moonsplash Music Festival at the Dune Preserve in Anguilla continued as scheduled this past weekend.

More on Moonsplash is <u>here</u>. This annual event is held at the Dune Preserve, most widely known to Americans is the site a number of years ago of a major Jimmy Buffett concert.

## **18. SXM Carnival Postponed to April, 2021**

SXM Carnival, which rivals the Heineken Regatta among the top social events of the year on the island, has been postponed to April, 2021 -- effectively cancelled for this year.

More information on the carnival -- including info about tickets already purchased -- is here.

## **19. JMB Postpones Island Parties, for Now**

Everything St. Maarten and SXM Weekly News' Massachusetts parent company, JMB Communications, has indefinitely postponed all member island parties it was working on for the rest of 2020.

The company said that once the coronavirus is contained and it is reasonable to do so, it will restart the parties at locations across the island.

JMB has been throwing island parties for its members for close to 20 years.

## **20. SkyMed Accepts Couples, Singles, & Partners**

Now in its 31st year, SkyMed International provides medical evacuation services to its members when they become seriously or critically ill or injured while traveling throughout the United States, Canada, Mexico, Bermuda, the Bahamas, or the Caribbean. Global protection is available through Global Emergency Transport Services (GETS), a SkyMed company. SkyMed accepts singles, couples, and partners. For much more information on what SkyMed offers, please see the next article.

As you'll see in the next article, SkyMed does provide medical evacuation services (subject to regulation) for coronavirus patients. Details on that and answers to other frequently asked questions are in the next article.

## 21. SkyMed Q&A / FAQ ::::::::: Updated 3/20 w/ Covid-19 Info

SkyMed® FREQUENTLY ASKED QUESTIONS

-----

**Answers to Common Questions** 

*This document* contains general SkyMed information in answer to common questions. SkyMed's services are defined by its Member Services Agreements – plain English documents that tell you what you get and how it works (see much more info below). As always, SkyMed offers a 30-day "Free Look period," so if for any reason you're not satisfied with your unused SkyMed protection before 30 days have expired, SkyMed will refund your money.

#### Q1. Does it cover my trip to ...?

Basic short-term and annual "SkyMed Takes You Home®" protection applies throughout the USA (all 50 states), Canada, Mexico, Bermuda, the Bahamas, and all the nations of the Caribbean. Global Emergency Travel Services (G.E.T.S., a subsidiary of SkyMed) protection is available <u>outside</u> the USA, CANADA, MEXICO, BAHAMAS, BERMUDA, and the CARIBBEAN (the rest of the world), however neither SkyMed nor <u>G.E.T.S. covers trips to nations on the U. S. State Department's then-current "Do Not Travel" list</u> – North Korea, Iran, and Venezuela currently, for example, and several others. Before planning a trip, check that list if you have any question about whether protection is provided for your destination – or call SkyMed directly during normal office hours (Mountain Standard Time) at 480 946 5188 or 1-800-475-9633.

#### Q2. Who is protected?

1. "Single" protection is available for individual travelers. "Family" protection includes your spouse or domestic partner and your young children up to 18 or 24 if they are full time students.

#### Q3. Do I need to call SkyMed before traveling outside my home country?

1. If you're traveling during the normal high season for travel to your destination, no. If you're traveling to your destination during its low season, do call SkyMed Member Services at the 800 number in the first question and let them know.

#### Q4. What if I'm going to a country not listed above in question 1?

1. Then you'll need (G.E.T.S) protection. If you have one of our Ultimate multiyear memberships, (G.E.T.S.) protection is included. On Annual (one-year) memberships, "G.E.T.S." protection is an inexpensive option.

#### Q5. What's the difference between "short term" and "Annual" or multi-year protection?

1. Short-Term protection is intended for brief trips, say a week or two. Like Annual protection, it "Takes You Home®" to doctors and hospitals you know and trust when you suffer a serious or critical illness or injury while traveling. Preexisting medical conditions are covered from day one with the short-term plan. It's inexpensive, only \$15/day for family protection. Remember, though, that Annual and Multi-year Ultimate memberships cost much less – only about \$1.35/day for family plans. Plus, they're guaranteed renewable without regard to advancing age or declining health. If you get a short-term plan, once it has expired, it is done, and you must reapply and requalify for another when you next travel. With Annual and multiyear Ultimate memberships, all you need do is renew before the renewal deadline – no need to reapply unless your membership has lapsed and the grace period has ended.

#### Q6. Is there an age limit for applications?

1. There is no age limit to apply. There's no age limit on renewals, either.

#### Q7. Can you cancel my protection at a certain age or if I get really sick?

1. Annual and multi-year Ultimate memberships are guaranteed renewable, as noted above. They will not be cancelled simply because you're a certain age or because your health has changed.

#### Q8. Will you raise the price of my membership at a certain age or if I get sick?

 Once you're a SkyMed member, at renewal time you'll pay the same low renewal fees that everyone else with your type of membership pays. If you join at <u>age 75 or older and purchase the X-Pat plan</u> because you live in Mexico, the Bahamas, Bermuda, or the Caribbean, the X-Pat plan is more expensive than the standard traditional (Annual or multiyear Ultimate) plan.

#### Q9. What exactly does SkyMed cover? Is it health insurance?

1. You'll find an overview of all key SkyMed Features & Benefits here: http://www.everythingsxm.com/sxmweeklynews/SkyMedServices.pdf

This is the same list you'll find on the back of our current membership applications. SkyMed provides up to 18 benefits related to medical evacuation if you suffer a serious or critical illness or injury while traveling. It is <u>not</u> health insurance – in the "SkyMed universe," SkyMed *Takes You Home*® to doctors and hospitals you know and trust, where your health insurance works.

#### Q10. What about pre-existing conditions? Are they covered?

1. Yes: for short-term memberships, medevac protection (including items listed in the answer to Q9, above) is included for critical illnesses or injuries related to pre-existing and non-pre-existing conditions. For Annual and multiyear Ultimate memberships, pre-existing conditions are covered after a brief 90-day waiting period.

## Q11. I want guaranteed renewable protection because of my age, but I'm going on a trip sooner than 90 days. What can we do about that?

1. Get our inexpensive short-term membership to cover your near-term trip, including medical evacuations for serious or critical illnesses or injuries due to pre-existing conditions. At the same time, apply for an Annual or Ultimate membership, to kick in once your near-term trip ends.

#### Q12. I'm not traveling for a while. When should I apply?

 <u>Get SkyMed before you need it – just like fire insurance</u>. Since you don't know when you'll need it – and since health can change in a heartbeat thanks to falls, accidents, or other issues – it's always better to do it sooner rather than later. Beyond that, if you have pre-existing conditions and get SkyMed Annual or multiyear Ultimate medevac protection now, that 90-day exclusion period for pre-existing conditions protection may well be finished by the time you travel.

#### Q13. What kind of questions do you ask in your application? Do you send somebody to do a medical exam?

 There's no medical exam. Our application is simple, asking about hospitalizations in the last six months, your current medical conditions, and your prescriptions – and on the prescriptions, all we need is their name, not dosage info. If you have a complex medical history, SkyMed may ask for a "HQ" (health questionnaire) to be completed by your doctor and submitted to SkyMed by fax. You should also have your passport number handy; we record it so it's there in case you need help outside your home country.

#### Q14. How long does it take before I hear whether I'm accepted?

1. Generally just a few business days, but it's always best to do your application early to ensure sufficient time for processing.

#### Q15. I have more questions. Where do I find the answers?

1. SkyMed Ambassador Jeff Berger, located in Massachusetts, will be happy to answer your questions. Call his private line at 508-747-8281.

#### Q16. Can I sign up online?

1. For fastest results, we always suggest you contact us directly. We've done thousands of applications and can whisk you through the process in minimal time and with minimal bother. To get additional information first and see some customer stories, check our site, <u>www.skymed.com/jmb</u>. But to sign up, always call 508-747-8281. The process normally takes about 10 minutes, if that.

#### Q17. Who can get SkyMed?

1. SkyMed is available to residents of the USA and Canada, and to X-Pats living in the countries listed in Q1. X-Pat protection is necessary if you live outside the US or Canada for six months or more, in aggregate, in any 12-month period. Always notify SkyMed if you move.

#### Q18. I have a rather deep medical history. Will SkyMed still accept me?

 Although SkyMed accepts the vast majority of applications, others do get health questionnaires (see Q13) and occasionally some do not qualify. <u>There is no cost to apply if your membership application cannot be</u> <u>accepted</u>. A history of a heart attack or cancer several years ago or other maladies does not automatically signal any issues for SkyMed. Apply – there is nothing to lose (again, no charge if you're not accepted). And as we noted in Q6 there is no age limit to apply and no age limit to renew.

## Q19. Is the COVID-19 virus covered under Medical Condition Exclusions in the SkyMed Member Service Agreement?

 The COVID-19 virus is currently classified by the CDC as a Biosafety Class Level 2 and is NOT excluded in the SkyMed Member Service Agreement. The SkyMed Member Service Agreement states 'Medical transport services will not be provided to any member who has a diagnosis of, or is suspected of having, a Biosafety Class Level 3 (or above) pathogen as classified by CDC.'

#### Q20. Can SkyMed evacuate a member diagnosed with COVID-19?

1. YES, it is possible for a SkyMed member diagnosed with COVID-19 to be air evacuated to their home hospital transport preference. The receiving hospital must pre-approve acceptance before the flight is dispatched. Our member must be declared 'Fit to Fly' by their attending physician and the Fit to Fly form submitted to SkyMed's Medical Director. It is important to understand that it might not be a viable option given current travel bans and restrictions. Most City/State/Provincial government authorities are currently blocking entrance of infected patients and this is an overriding situation beyond SkyMed's control. We have identified several air ambulance companies that will contract with us to transport COVID-19 patients. They are ALL required to obtain prior approval on all movements through the proper channels and follow all quarantine requirements imposed by local and receiving governments. They cannot, knowingly, transport a patient with COVID-19 (or other known exposures) without Health & Human Services (HHS) approval.

## Q21. If a member is located in an area where local governments have enacted COVID-19 related travel restrictions would an air evacuation be possible for other emergencies like a heart attack or stroke?

 If our SkyMed Member is declared Fit to Fly by their attending physician, SkyMed believes it will be possible to conduct an air evacuation. Because there are new developments daily related to the COVID-19 disease circumstances may change without notice. Every situation will be unique to the area our Member is located in and SkyMed must adhere to all laws, at all levels of all governments, that we are working within.

## SkyMed will take things literally one day at a time and one Member at a time. We will do everything possible to assist and inform our Members.

## 23. Get SkyMed Now For All Upcoming Travel: Member Stories

**On a recent Thursday at Mullet Bay Beach**, a woman at the edge of the water fell and accidentally knocked down her friend, standing close by. The friend felt pain in her leg as she got up, went to a hospital, and was told she had a "soft tissue injury" and should relax in the sun. Pain continued. Next day she went to the Maho Clinic for another opinion since she couldn't put any weight on the leg without pain. The doctor there sent her to the French Side for a new x-ray. That diagnosis came back - broken leg and she had to be medically evacuated back to the US for surgery. A few days before, the woman had bought short-term SkyMed medevac protection for her short trip to SXM. Cost, under \$100. She was sent home by jet by SkyMed. The charge for the jet: \$0. Without SkyMed, had she needed a medevac jet, the \$26,000 (approx.) price of that jet home would have had to be paid in cash in advance; with SkyMed she was home and in the hospital of her choice the next day for \$0 out-of-pocket.

Mary Beth and her partner Don were vacationing in SXM when Don fell and broke his hip -- only about a month after they had bought SkyMed. SkyMed flew them home on a medevac jet for the hospital care he needed. Flight cost to the patient: \$0. Savings: over \$35,000.

**An MD from Florida who always visits SXM** was on a cruise vacation to the Greek Islands with his wife when he broke his femur aboard the ship. He was rushed to the hospital in Corfu but called SkyMed which arranged and paid for an emergency medevac flight to Athens for urgent surgery. A few days later SkyMed evacuated him again, with an excellent male nurse, all the way home to Florida, where an ambulance took him home for recovery. Required flight cost to the patient: \$0. Savings: huge.

A Summer trip ended in disaster when a child visiting her grandmother in Grand Case was bitten in the head

by the grandmother's bulldog, imperiling the girl's eyesight. She was flown to Miami in a medical evacuation jet for emergency eye surgery that saved her sight. Flight cost to the patient: \$0.

**A woman from Virginia** shopped at an island grocer and headed back to her car carrying two bags of groceries. She tripped and fell on a curb and knew at once she had fractured her hip. After being stabilized locally, she was flown home on a medical evacuation jet from SkyMed where she had the surgery she needed. Flight cost to the patient: \$0.

Two men were riding their horses on a hill in Cay Bay when a car backfiring spooked one of the horses, which

threw its rider. The other rider got off his horse to check his companion when the car again backfired, spooking the horse again which led it to kick its dismounted driver in the head, luckily causing "only" a severely dislocated jaw. The local hospital had no ability to solve that problem so the victim was airlifted by SkyMed back to Pennsylvania for surgery. Flight cost to the patient: \$0.

**A member of the clergy** fell down cement stairs and broke her leg. She too was airlifted home by SkyMed for surgery. Flight cost to the patient: \$0.

Not all trips end well: anything can happen when you travel. Being a member of SkyMed was the common thread in all these cases. SkyMed takes its members home, usually in a private, ICU-equivalent medical evacuation jet -- home to doctors and hospitals the patient knows and trusts -- and home where their health insurance works. That's just one of up to 18 benefits received by SkyMed members for not much more than \$1.30/day for annual or multiyear memberships.

All this is why we always recommend SkyMed. Call Jeff Berger weekdays at 508-747-8281 and leave your name, phone number, and time zone. Jeff will call back at a mutually convenient time and answer all your questions. He can also sign you up by phone in about 10 minutes. <u>You're eligible to apply regardless of your age or health if you are a U.S. or Canadian citizen or an American or Canadian ExPat living in SXM or certain other countries.</u>

**Anything can happen anywhere: Do it today.** To learn more, visit <u>www.skymed.com/jmb</u>, our new SkyMed site, going live shortly.. JMB members get big discounts off SkyMed's regular pricing: see the story about JMB Website Supporters in this section.

# 24. Restaurant of the Week: White Swan Chinese Restaurant

For years a landmark on SXM, White Swan in Simpson Bay on Sr. Modesta Road just off Airport Road is widely regarded as SXM's very best.

You won't see chicken fingers or PuPu platters -- this is authentic Chinese, or as close to it as you'll get in this

hemisphere. The smallish homestyle restaurant is friendly, very accommodating to dietary needs, and offers prompt, attentive service and awesome food and surprisingly low prices. Portions are generous, fresh, and delicious.

Delicious food, NO MSG -- it's everything you could ask for. Many people say "We don't come to SXM for Chinese." Try White Swan anyway; it will absolutely change your mind...
