THIS WEEK'S STORIES:

Stories are numbered; scroll down for stories of interest.

SECTION 1: Getting Here: Flights, Airlines, Airports, Cruises, Weather, and COVID-19

GETTING HERE:

1. Recent Fatal Boeing 737 Crash in Indonesia Was NOT a MAX

Hearing of the recent crash of a Boeing 737 in Indonesia, many people may have done an eye roll, assuming the crash was a Boeing 737 Max recently returned to service — but that was not the case. So far, 737 Max's return to service has been without any notable incidents.

This airliner was a 737 500, a workhorse aircraft in service for many years. Airlines in Indonesia are notorious for poor maintenance practices so that will certainly be one key focus of the investigation into the crash, which took 62 lives.

Here is [the full story](#). Investigators have recovered the cockpit voice recorder and are examining its contents.

2. Jet Blue Launching A220 Service This Year; May Mean a Lot to SXM

JetBlue has received the first of its new fleet of A220 aircraft; it took possession of the plane at the end of December.

With 140 seats, the fleet of 70 A220's that JetBlue is scheduled to receive over the next few years will be replacing its fleet of 60 100-seat Embraer E190 aircraft. The A220 300 aircraft JetBlue is receiving will have 3/2 seating, versus the 2/2 seating of the E190. They also have transcontinental range and could ultimately be used for increased flights from new cities to SXM, for example. The airliners are far more efficient than the older E190s they replace, which will make possible many new routes from smaller cities.

Breeze Airways, the new airline by JetBlue and WestJet founder and serial airline entrepreneur David Neeleman, will also be receiving a large number of A220 aircraft over the next few years if, enabling them to start up point-to-point service from smaller cities across the US. That airline will start service this year. Neeleman has never been reluctant to push the envelope for airlines so the future of Breeze in the next decade will be interesting to watch -- especially from SXM's perspective. .

Here is [more](#) on the jetBlue A220s.

WEATHER:

3. Midwest Blizzard, Northeast Storm, & Polar Vortex

Friday's high wind event and Midwest blizzard, followed by a Northeast storm over the weekend and initial scattered news reports about a pending polar vortex are likely to motivate lots more tourists to escape crazy winter weather and head to SXM.

Winter has arrived in full force in North America and talk has just started surfacing about that polar vortex, which delivers frigid arctic air to much of the US. Stay tuned to local forecasts in the US to hear about when the vortex is likely to affect your area in the Eastern and central parts of the country.

4. Where to Find Current SXM Weather Info

You'll find detailed observations and forecasts by visiting our main SXM website, www.everythingsxm.com, and clicking either of the weather observations at the top of the page.

The four sources of current weather info, beyond the two above, are:

- 1) [Crown Weather Services](#) whose very inexpensive subscription service is, we feel, the best in the business.
- 2) Our "Weather" page at www.everythingsxm.com -- it has current satellite images and radar loops and now all the latest NHC weather forecasts, outlooks, and advisories as well. There are now also active weather widgets on the site's home page.
- 3) Our [Everything SXM Facebook Group](#), which publishes the latest advisories, watches, and warnings when SXM is threatened by any storms.
- 4) **On or off the island, listen to Island 92** -- 91.9FM or see www.island92.com. They report island warnings at once and know exactly what's going on. You can listen on the web anytime through live streaming.
- 5) For a quick look at weather radar exactly where you are or where you're going, try the My Radar phone app or My Radar for Windows -- excellent programs.

Get a quick, current satellite look at the Atlantic basin anytime: <http://www.goes.noaa.gov/GIFS/ATWV.JPG> .

N. B.: *Again...Never rely on any website if you're in the path of a storm; always heed warnings from local authorities.*

Download your own NHC Hurricane Chart:

Years ago, before we were all saturated with weather information from cable TV to local (redundant and repetitive)

news and forecasts plus weather updates and bulletins on our smart phones, gas stations and television stations offered printed hurricane tracking charts so people at home could try to figure out for themselves whether they were about to get slammed by the latest hurricane.

We haven't seen hurricane tracking chart handouts for years, but if you want one they are easy to get.

The exact charts used by the National Hurricane Center (NHC) are available for download from the NHC [here](#). Select "Atlantic" and you're good to go. You can print out the chart and use it repeatedly, or simply print a bunch of them and use one for each storm that may approach an area of interest -- like, SXM. Bear in mind that this hurricane season may well be frontloaded — so you might want to print a few of these now and *not* save doing that for later.

COVID-19: General

5. Simple, Fast, Cheap Covid Insurance Now Required

Here is the island's formal announcement:

**** Vacation Safe in St. Maarten with the SXM Protection Plan ****

As of January 11, 2021, St. Maarten will roll out the SXM Protection Plan, a mandatory health coverage for its visitors that is very affordable and assures the tourist a relaxing and safe vacation. Due to the COVID-19 pandemic, St. Maarten wants to ensure that all visitors are properly protected, and have an advanced protection in case they test positive while vacationing on our friendly island.

A visitor who tests positive for COVID-19 in St. Maarten, will have very few, if any, out-of-pocket expenses, giving the visitors a peace of mind in case they test positive, and if they cannot be assisted in St. Maarten, the SXM Protection Plan covers also medical evacuation costs. The overall maximum limit for all benefits together, except Medical Evacuation, is \$50,000. Emergency medical evacuation to the nearest qualified hospital to prevent loss of life, is up to a maximum limit of \$20,000, provided the patient cannot be treated locally in St. Maarten.

In case of hospitalization, the expenses to treat severe COVID-19 symptoms includes specialist fees, diagnostic x-rays, lab expenses and nursing costs. Costs of specialized transportation of a Covid-19 infected person. It also covers a maximum sublimit of \$125 per day, max. 14 days, in case of a positive Covid-19 test result. Intensive Care Unit charges for treatment of a critical ailment caused by COVID-19. Costs of doctor consults. Max. 4 medically necessary Covid-19 tests as outpatient with a sublimit of \$75 per test.

Tests are only covered with referral from the St. Maarten Government Health Department. Emergency medical evacuation to the nearest qualified hospital to prevent loss of life. Preventive government mandated quarantines for fellow travelers and those who tested negative are NOT COVERED.

The insurance is required for all foreign nationals with the exception of residents, visitors who arrive, leave the same day, crewmembers and transit/transfer passengers who do not need to recheck their luggage.

The St. Maarten Visitors Protection Plan sold and processed via the mandatory online health form on www.stmaartenentry.com

For detailed information on the St. Maarten Visitors Protection Plan please visit www.sxmprotectionplan.com
About St. Maarten: St. Maarten is the smallest island in the world to be shared by two nations – Netherlands and France – creating a destination with European charm and Caribbean flair. Located at the northern end of the Lesser Antilles, the islands 37 square miles has 37 breathtaking beaches and is home to many historical and family-oriented attractions. Direct air service is available to Princess Juliana International Airport from major U.S. and Canada, South America, Europe and the Caribbean gateways.

Two important comments from SXM Weekly News:

- a) You do NOT have to re-up with this insurance after taking day trips to a neighboring island.
- b) This insurance DOES cover you on both the French & Dutch sides of the island.
- c) PRINT OUT your policy information when you receive it after signing up, and TAKE IT WITH YOU on your trip along with your preapproval email and your accepted negative Covid test.

6. Why It's So Critical to Double-Check Everything Before Submitting Your Pre-Approval App!

Although our complete **Guide to SXM Entry Requirements**, which begins below, tells you everything you need to know to navigate the requirements successfully, the bottom line is that you must double check everything you are submitting to the EHAS portal very carefully before hitting the submit button. In most instances, when applications are denied, the cause is traveler error — either incorrect or incomplete information is being submitted or information is not being submitted in the proper format. That's why it is so imperative to ensure that you double check everything before submitting your preapproval application to EHAS.

7. Repeating: What to Do If One of You is Denied EHAS Preapproval & The Other Is Accepted

Although the EHAS system has already been staffed up (and staff continues to be augmented due to rising demand), EHAS is manned by humans, not computers, and in rare instances these humans may make mistakes. Although it seldom happens, in some cases husband-and-wife or other partners or friends may submit identical applications with identical negative Covid test results both of which meet all requirements — and one may be approved and the other denied.

If this happens to you, check your application completely to make sure it meets all of the requirements described in precise detail in our Guide to Entry Requirements published in the Files area of our [Everything SXM Facebook Group](#). If it does, and if time allows (for example, if your flight is at least a day or two away), resubmit your application after checking it very thoroughly. We have had people submit applications three times, receiving their approval after two denials. Incidences are rare but they do happen.

If you are within a day of your flight and have received multiple denials after carefully checking your application to make sure it meets all qualifications, PM Jeff Berger directly in Facebook messenger and give him all the details and copies of all the PDFs of all your forms. Do not send images either to EHAS or to us — you must send PDFs, which are clearer and more usable (that's what we instruct in our Guide). JPEGs (photographic images) are a sure way to get a rejection. Jeff will see your message within a few hours at the most and will try to help everyone in this situation, with priority attention always given to members of our JMB Website Supporters island discount program through its Ombudsman benefit. We do work as quickly as possible to help you but cannot guarantee any results -- but we do have a pretty good record.

8. Can You Get a Covid Vaccine Shot in SXM?

A number of tourists who spend many weeks on the island every year have asked us recently whether they can get Covid vaccine shots while in SXM. The answer is NO. Vaccines will soon be distributed here and we are sure they

will be given out in priority order to healthcare workers/1st responders, then the elderly and people in nursing homes, and then to the general population — pretty much the same order as in the US. Foreign non-residents are not covered.

If you are a resident of SXM, that's a different story; SXM residents, contact your healthcare provider for more information.

COVID-19: Guide to Entry Requirements - Please Read and Retain - REVISED 1/16/201

9. Guide to SXM Entry Requirements

See Story #5, above, re: the new requirement on SXM for Covid Insurance bought from the island, now in effect (1/11/20).

Also:

Effective November 25, SXM began to accept rapid antigen tests taken within 48 hours of departure in addition to RT – PCR tests taken within 120 hours of departure. Full information, updated to reflect this major change and listing the types of antigen tests accepted, is in the Covid area of the FILES in our [Everything SXM Facebook Group](#) (and is also below). That file has been completely updated to reflect the newly revised testing requirements.

Antigen tests are the widely discussed "rapid" tests previously not accepted in SXM. Specific reliable tests will now be accepted, and they are spelled out in our [Everything SXM Facebook Group](#) article on Covid in the Files area.

For current information on exactly what the entry requirements are in SXM, please see [this Dutch-side government site](#). It's operated by the SXM government and it also includes individual forms you must fill out online in advance to get advance approval to enter the country, and where you also are required to upload your RT PCR or Antigen test negative results. If you don't do that, or if you send results in a form that is not acceptable to the island, you will not be allowed to board your flight.

That site is also where you will be able to sign up for the soon-to-be-required Covid insurance. Stay tuned for details on that.

10. What RT-PCR means; (It is Not "Real-Time")

"PCR" is an acronym for **polymerase chain reaction**, and "RT" refers to **reverse transcription** -- NOT "real time". The only types of test for Covid-19 currently acceptable to the government of SXM are both RT-PCR and the Antigen test, which has been added effective 11/25.

Although it is the case that RT-PCR testing is being turned around faster now than it has been, do not confuse it with real time tests which are not the same. When in doubt, see the above article and click the link for exact current government requirements.

11. Finding & Taking RT-PCR or Antigen Tests in Your Area

You must have a negative RT-PCR test taken less than 120 hours before your departure to SXM, or your Antigen test taken less than 48 hours before your trip. If you're on a connecting flight, this requirement relates to the departure of the final leg of your trip.

Where do you find a test in your area that will be able to deliver results to you within the required 120 or 48 hours? There are a number of ways to find out. You can ask friends who travel from your area; you can ask people on the site in your community where local people discuss local goings-on (that often works well); and you can also ask your primary care physician. Covid tests taken for travel purposes are not always paid for by insurance. You might ask your PCP to send an order in to a local laboratory for test for you — those will often be covered by insurance and results are very often posted at once when ready on the lab's or hospital's portal, you can download the results in PDF format.

The requirements from SXM specify what information must be in these reports — things like the name of the lab, lab

location, date and time of test, type of test (RT-PCR or Antigen), your name, and the result of your test. Once you get the PDFs for you and all of the people traveling with you, print them out and keep them with all the trip documentation that you will be taking with you — you will need them.

More on the Application for Entry into SXM and how the PDF relates to that application is below.

12. Applying Online for Admission to SXM: What & How, w/ Advice

The government of SXM wants to keep out people who are sick with Covid — that's what all this is about. You must apply online for admission to SXM once you have negative results back of your PCR or Antigen test. If you have a positive result, you will not be admitted to St. Maarten.

Go to the same website where you learned about entry requirements to apply for admission. It is absolutely required and if you are not preapproved for admission you will not be able to get on your plane to go to SXM. The application will take you only a few minutes to fill out. It asks for your name, email address, the usual questions about whether you have any Covid symptoms or have been near anyone diagnosed with Covid recently, plus where you plan to stay on the island. It also asks you for the airline and flight number of your flight departing to SXM, and the departure date. (Remember the 120 hour or 48 hour requirement.) Submit the application form from the website to EHAS by clicking a button. You will usually hear back in a few hours or overnight if you submit the form fairly late at night.

To make sure you get the paperwork approved as quickly as possible, we suggest you get your test taken several hours below the 120 hour threshold ahead of the time of your departure to SXM (48 hours for Antigen test). That should give the laboratory plenty of time to get things to you so you can immediately file the application and get the information to EHAS, giving them as much time as possible -- they say to allow 12 hours for processing. Their responsiveness is usually excellent. If two or more people are going, we strongly suggest that you send the applications each using a different email address — that way, when you are asked to report your temperature every day, you will know which person in your party is being asked to reply to a specific email from EHAS. Overall, though you may be put off by the thought of having to do this process, it's quick, simple, and easy — and as we said the responsiveness is outstanding. Just do it — not a big deal at all.

13. About the New COVID Insurance Requirement

See story #5..

14. ***VERY Important***: Avoiding Common Mistakes That Cause Denials (Updated 1/18/21)

There is often a common thread influencing denials. But since it is a human process, in rare cases human error can occur.

First, we'll deal with the common threads.

When submitting your negative PCR or antigen test in PDF format, **make sure it is done in PDF format** — not a picture or JPEG. JPEG's can be very difficult to read and that could be the basis of a denial. All of the required information is, of course, required information.

So, create a checklist from the information you see in this Guide and follow it to the letter when submitting your data. In fact, it is wise to find out what format your report will be in before you take the test, to ensure that the report will contain all the information SXM requires. That's not as difficult as it may appear, since most laboratories now are accustomed to issuing negative reports containing all information required for travel. Just be sure in advance that your report does include everything SXM requires. We often see prospective tourists send us applications they have submitted that were denied --many containing handwriting which is not allowed according to the requirements. No handwriting means no handwriting.

Second, sometimes you don't receive a response within several hours of submitting your application. **If that happens**

to you, double check your application very closely to make sure that it conforms to all applicable requirements. Then and only then, resubmit the application — and double check the email address to make sure it is spelled correctly since obviously, incorrect email addresses don't work. Check your passport number too as you wrote it in the online application -- if it's one digit different from your actual passport number, you aren't going to SXM. **NOTE: The response may go into your SPAM folder, so check there before you start panicking.**

Third, as we said, in rare cases human error can play a role in denials. EHAS has been staffing up further to help ensure its ability to provide quick, responsive, and accurate service to all applicants, something it is trying to do expeditiously.

Fourth, sometimes you and your spouse will take tests at the same time from the same people and receive the same negative results. One of you will submit an application which is approved and the other may be denied. If time allows, resubmit the declined application after making absolutely sure that it is accurate and complete and meets all requirements. However if time does not allow that PM Jeff Berger through Facebook Messenger (not by email or phone) and give him all the information you sent to the government including that an identical application had been sent in and approved. There are no guarantees but we will try to help. If you don't have Facebook, get it — that's the only way we can handle these situations expeditiously. (We get just under 5000 emails a day and have filters for them so we can't guarantee we would receive your email inquiry, which is why we are requiring you to respond to us by Facebook messenger.) N. B.: We do NOT check it every two minutes, so don't expect an instant reply.)

15. What to Take With You When You Go (An Important Checklist)

Everything on this list is essential for you to get on your airplane and fly to St. Maarten. You may wish to print this and use it as a checklist before leaving for the airport:

- a) Your passport and boarding passes (per usual);
- b) printed negative test results on laboratory stationery (this is the PDF form at the lab should send you to inform you of the results of your test; the test results form must include the information specified as required by Sint Maarten EHAS)
- c) the travel Pre-Approval form emailed to you by Sint Maarten EHAS in response to your submission of the negative Covid test (assuming your application was preapproved); this provision is not yet active.
- d) a thermometer, which you will need to take your temperature and that of your traveling companions during the first 14 days of your trip.

16. What to Expect When Arriving at SXM Airport

The second floor of SXM Airport, where the jetways go, is still not open, but the airport says the work on them is progressing. It's our intent to get with the people of the airport to obtain the latest information about the status of the jetways in the second floor as well as preclearance — and to find out when the airport will actually reopen as it was before hurricane Irma hit more than three years ago. For now, all services continue to be conducted on the first floor of the airport — both departures and arrivals.

Unless your arriving plane parks a very short walk from the current arriving passenger entry to the terminal, you'll exit your plane and walk directly to one of the shuttle buses that will take you to the terminal entry. Wear your mask, of course: there is no such thing as social distancing aboard the bus — but the trip is only about two minutes long and everyone is required to wear a mask anyway. People should maintain social distancing on their way through immigration and into the baggage claim area.

It is essential for you to have all of your documentation in hand when you go to immigration. We explain what that documentation is in the Covid section, above. Keep it handy because you will be asked for it. Your temperature also will be taken by a touch-free monitor and you will be asked the usual health questions to which you will be accustomed by the time you get to immigration.

Although it may or may not be mentioned to you as you go through immigration, you will be receiving email daily or thereabouts from Sint Maarten EHAS, requiring you to report your temp and to indicate whether you have any symptoms of Covid. You then click the appropriate button to send the documentation back to the island government. Filing these reports for 14 days is required by all visitors regardless of whether you receive the email from Sint Maarten EHAS. Consequently, it's important for you to save the emails you receive from the government and reply to them first

thing every morning: you can use the first email you receive for subsequent replies even if you don't receive daily emails. The form you fill out online will nonetheless change to reflect the day of your vacation (day one, day two, day three, etc.) Your finish filling out and sending the form within about seven seconds — and a thermometer is shown in our list of things you must take to St. Maarten to record your temperature. EHAS expects you to take your temp and submit your info daily first thing -- before breakfast.

17. Reporting Your Condition to EHAS for 14 Days

Once you have arrived in St. Maarten, EHAS will email you a notice with a link to their site. You are required to click the link which takes you to a very brief online form which asks you to record your temperature and whether you have flu like symptoms that morning before having breakfast. You then click a button in the online form to send its results back to EHAS. The form specifies is what day of your vacation the report is for — day one, day two, etc. If you receive an email the following day, follow it just as you did the first day. *If you don't, however, go back to the email you received the first day and click that link again — it will take you to the form you can use for day two or subsequent days.*

You must take your temp each day, which is why we said to take a thermometer with you. The current requirement is that you do this for 14 days. It takes less than 30 seconds each time and is simple, easy, and fast. During a global Pandemic, SXM is doing everything possible to ensure everyone's good health.

Going Home to the US: (NEW SECTION)

18. As of 1/26, US Requires Testing Before You Go Home

Effective Tuesday, January 26, the United States is requiring all international passengers to have a negative Covid test within 72 hours of their departure back to the US.

The original announcement is [here](#).

19. Meeting the New 1/26 CDC Requirement to Get Tested in SXM Before Going Home

SXM announced in a press conference this week that they are working to ensure the ability of the island to offer testing at cost to Americans who are returning home. The Files area of our [Everything SXM Facebook Group](#) now includes a file which lists the names of laboratories and other medical offices currently offering these services.

In addition, we are aware that government authorities are looking into offering rapid Covid tests at the airport, the results of which according to one government official could be known within 10 minutes of the test being taken. We do not know when this service may begin. Dutch side Prime Minister Silveira Jacobs said it is important that the island has two weeks to ramp up its capabilities to ensure that it has ample supplies to enable all Americans to feel comfortable in the knowledge that the island will be able to test all Americans before they return home and get them the results they need in time for their flights.

The tests will be offered at cost.

SECTION 2: Accommodations: Hotels, Resorts, Timeshares, Villas Etc

21. Will SECRETS Actually Be Ready on January 29?

Secrets Resort on the French side in Anse Marcel was originally supposed to open early in 2020. It didn't open until March, 2020, and to the astonishment of many guests at its opening the resort was far from finished. Some guests had no rooms available upon arrival, something the resort could have told them before they flew to the island but didn't.

Worse, wedding parties with many guests arrived on the island with no knowledge that it would be impossible for their weddings to take place because the resort was nowhere near finished. The resort shut down a couple of weeks after it opened due to Covid, and is currently scheduled to reopen in a couple of weeks, on January 29. Will it finally be ready, 10 months after it originally was supposed to open?

We tried to get into the site this past week but it was still pretty much locked down. We saw some workers outside the construction fence that still surrounds the property -- doing no apparent work. We could not see the interior of the property or the pool area, so we don't know the status of all those areas.

Construction debris is still piled outside the building and construction fencing remains in place as we noted. We were supposed to go on a press tour of this property last February but it was abruptly canceled, and repeated attempts to contact management and other officials have not been answered.

If you plan to visit Secrets in Anse Marcel anytime soon, based upon their lack of feedback we can't tell you whether it will actually be ready.

Without a doubt, Covid and the shutdown resulting from it delayed the completion of the resort after its original March opening. However, management has to take responsibility for the fact that it opened a resort that was far from complete 10 months ago. And if it has not managed to finish the hotel by now, it only has to look in the mirror to find out why.

We will keep watching this -- especially after the hotel is supposed to be open for business. If you are a guest soon after January 29, please post your experience in our [Everything SXM Facebook Group](#).

22. Glass, Exterior Finishing Work Progresses on First "14" Cupecoy Tower

As we've mentioned here and in our [Everything SXM Facebook Group](#) over the last couple of years, twin 18-story condominium towers are being erected overlooking the Mullet Bay golf course and mullet Bay beach, with visibility over much of the island.

The top story of the first tower has now been completed, and exterior glass is being installed as well as exterior finishing from the first floor upward. Interior work on the lower floors is also well underway.

Tower A, the tower now nearly complete, is almost sold out. Tower B, next door, is also under construction and it

already is almost half sold out.

Both towers, when complete, will be handsome new additions to the burgeoning skyline in the Cupecoy beach area, the fastest growing residential area on the island.

If you're interested in looking further at condo opportunities on SXM, please see our list of realtors in the Sponsor story, story #48 in this issue.

Although we do intend to put on future relocation seminars, the video of our November '18 seminar is available online to anyone interested in buying on SXM, whether for a vacation home, retirement home, income property, or anything else. .....BREAKING NEWS.....

28. Required SXM Covid Insurance Is Fast & Easy to Get

As you navigate the EHAS process described in section 1 in our **Guide to Entry Requirements**, you will find on the EHAS site a link to where you can sign up for the new SXM Protection Program, which is the required Covid insurance program for visitors.

Sign-up is fast, easy, and simple, and should take you no more than about a minute per person. Although most people won't regard it as perfect, the program is surprisingly feature-rich and incredibly inexpensive — only \$30 for trips lasting from a few days up to the 180 day maximum.

For more information, see their website, www.sxmprotectionplan.com.

29. Foreigners Can NOT Be Vaccinated in SXM

If you are a visitor to St. Maarten — and not a resident, and you are thinking of getting vaccinated against Covid while you're on vacation on SXM, think again — you can not get vaccinated in SXM.

The supplies that are coming to both sides of the island will be adequate for residents only, and are supplied by France to the French side and by the Netherlands to the Dutch side expressly for island residents only.

If you do get vaccinated at home, do not expect the vaccination to be accepted for entry to SXM — it is not currently an acceptable form of entry requirement. For much more on entry requirements see our Guide to Entry Requirements above in this issue or in the Files area of our [Everything SXM Facebook Group](#).

30. Meeting the US Requirement (Eff. 1/26) for a Negative Covid Test Before Going Home

SXM is doing everything possible to ensure that it will have adequate supplies of Covid tests to enable all US citizens returning home on or after January 26 to be tested and receive their test reports in plenty of time for their trips. For the full story on this, please see complete information in story #19 above, in the new section of our Covid coverage concerning returning to the US.

31. Mama Pizza, Oyster Pond, Expects to Reopen by Feb. 1

Until Irma hit with full fury, oyster pond/Dawn beach was a thriving vacation area with many restaurants, rental condos, and lots of villas with a gorgeous long beach looking to the east and the island of St. Barth. One of the most popular restaurants of any kind in the oyster pond area was Mama Pizza, serving both pizza and a number of Italian dishes. But after Irma demolished pretty much everything in its path, owner Desmond Cuthbert kept the restaurant closed because there was so little activity in the area.

Now they are getting ready to reopen and are almost finished with preparations. The area has come alive with lots of activity at Oyster Bay Beach Resort, reopened many months ago, Coral Beach club, Dawn Beach club, and the Princess Heights condominium towers along with a number of reopened restaurants and the all-new Villa Vijoux steps away.

But the place most people are looking forward to hear about is Mama Pizza, one of the most popular destinations on the island for great pizza. The flagship Mama Pizza restaurant at Porto Cupecoy will remain open as it has been for months. Mama pizza last year received our coveted **Everything SXM Culinary Award of Excellence** which was very well deserved. When visiting, be sure to tell them you heard about them here in Jeff Berger's *SXM Weekly News*.

32. Toppers All-New Restaurant / Bar / Karaoke Expects to Open at Carousel Mid-February

With all-new custom furniture and lots more of exciting new features, the new Toppers Restaurant/Bar/Karaoke site will be quite something when it opens at the carousel. Because of the custom furniture and lots of other great features being built into the new site, the restaurant is not expected to open until about mid February. The current, original location of Toppers restaurant in Simpson Bay remains open as always.

We expect to publish pictures of the new restaurant site in our [Everything SXM Facebook Group](#) before too much longer; join that group for lots of useful island information and lots of interesting SXM photography.

33. Terrific Lunches Now Available at Mario's Bistro

Mario's Bistro, which recently relocated to the Cliff in Cupecoy, is known for its extraordinary evening dining. But now, Mario's services have expanded to include a spectrum of remarkable offerings for lunch. (Mario's is open for lunch and dinner every day except Monday and also offers an extensive Sunday brunch.)

We recently published their entire lunch menu in our [Everything SXM Facebook Group](#). If you go to that group and search Mario's Bistro, you will find the menu.

I had the Mahi sandwich which, frankly, was the best Mahi we've ever tasted. Mahi is a dry fish and can easily be overcooked. Theirs was perfectly cooked and deliciously moist — a really terrific sandwich. There were a couple of dozen other superb selections and, of course, the obligatory Cheeseburger, marking the first time in 40 years of being a chef that Mario has created a Cheeseburger.

Ilene had crab cakes, usually served with their Eggs Benedict but she had them alone and says they were amazing.

Do not miss Mario's Bistro for lunch or dinner, daily except Monday.

34. Buccaneer Beach Bar Remains Closed

Bernard Fourie's Buccaneer Beach Bar in the Pelican key area continues to be closed. In fact, Bernard has been taking some rare time off and has been skiing in New England, enjoying the cold weather there that most of the rest of us work so hard to escape.

If we hear of any changes to the future status of Buccaneer Beach Bar, we will publish that information here in *SXM Weekly News*.

35. Sargassum Seaweed Update

The great news about Sargassum seaweed — the heavy stuff that plagued much of the Caribbean several years ago — is that there isn't any of it to be seen in SXM now, anywhere. In fact, on Friday we photographed parts of Orient beach

where there was virtually no seaweed at all along the shore, making the beach as pristine as we have ever seen it.

Come on down and enjoy great beach weather and beautiful, super-clean beaches.

36. Carnival 4/16-5/2

No one has any idea how they are going to pull it off, but the organizers of the St. Maarten Carnival have announced that Carnival will be held this year from April 16 to May 2.

Carnival is a time when people gather by the thousands in a huge celebration — exactly the kind of event, normally, that no one should attend during a lethal global Pandemic.

That said, organizers are promising that they will reorient the event in ways that will make it safe. Heineken Regatta organizers have also said the Regatta will go on, even if a significantly smaller number of boats participate; the number of boats involved remains to be seen, with many teams looking forward to returning to SXM. The land portion of the Regatta, the party portion, we know will take a different format but we have been assured that music will continue to be a part of it.

As time moves forward, we will have more information on both of these major SXM events.

----- Breaking News -----

37. UAL Offers \$200 Vouchers to Some People Exposed to Covid On One of Its Its Planes Due to UAL's Apparent Negligence

Several weeks ago, as we reported here in *SXM Weekly News*, a United Airlines passenger passed away during a flight. The passenger was quickly found to have been Covid positive, and died aboard the flight.

Passengers rushed to aid the victim when he collapsed, with some applying CPR techniques, as often happens when good people act to save others.

Although United Airlines quickly became aware of the fact that the passenger had been able to get aboard one of its flights despite being Covid positive, *it never notified if any of the passengers aboard the flight of the fact that they had been exposed to Covid and should quarantine*. It said that was up to the CDC, which we view as a monumental abdication of UAL's responsibility to its passengers.

It seems to us and to many others that — since airlines often give away as prizes round trip tickets to anywhere the airline flies — everyone who was aboard that airplane should be offered that as a thanks for their efforts to help the passenger and an apology for not bothering to make passengers aware that they had been exposed to Covid and that contact tracing should be initiated for everyone they may have seen since their flight.

Instead, United offered \$200 vouchers only to a few select passengers -- the ones who put had their lives in danger by applying CPR to the stricken passenger. It seems to us that those passengers should at least get some kind of financial compensation. We're no lawyers, but it seems that they have a case if they decide to take the airline to court for not keeping them safe and protecting their lives aboard the airplane. Perhaps \$5,000 per passenger plus a free trip anywhere for them and their spouse for life would be a more sensible gesture....

38. Restaurant of the Week: Mama Pizza

Situated for the last few years in Porto Cupecoy and soon to reopen in Oyster Pond (see story above in this Section),

Mama Pizza has long been regarded as one of the island's top spots for Pizza. Located on the Plaza in Porto Cupecoy, it has the best view of the top three (Isola next to Hollywood Casino in Pelican Key and Pizza & Co. in Simpson Bay are the other two SXM pizza frontrunners).

Their pizzas are big and generously adorned with your favorite toppings, and the taste is amazing. They also have a large number of other Italian selections and welcome the opportunity to create new dishes according to your preference: for example, instead of their usually offered chicken parm, they suggested Mahi parmesan and we will take them up on that during our next visit.

Visit Mama Pizza at Porto Cupecoy on your next island visit. You will soon become a regular...

39. Going Home? Check Your State's Return Policies

It's essential for visitors returning home to the US to know their home state's policies and procedures for passengers returning from overseas flights well before they head to the airport.

We suggest at least a couple of weeks before your return date that you visit your state's main web portal to see exactly what its requirements are regarding Covid. Some states may require a negative test be taken X number of hours before your return flight; others may require some degree of quarantine, and others may require nothing.

If a Covid test is required prior to your return home, you may ask about testing locations on SXM that you can use — to do that, go to our [Everything SXM Facebook Group](#). Please do not ask questions there about your state's requirements — our group is SXM centric and will not accept such posts. Your state's web portal is certainly the best source of current, accurate information about requirements related to returning international passengers.

40. SXM Entertainment Calendar Now In Our SXM FB Site

We have long published the island92 SXM entertainment calendar in our main site, everythingSXM.com. Effective in November, however, we transitioned it to our Jeff Berger's [Everything SXM Facebook Group](#). It offers you a look at venues for live music across the Dutch side with some on Anguilla.

The list is compiled by Island92 and we simply run it. We don't have the bandwidth to create such a list ourselves, but we do invite owners of local venues who are not listed in the entertainment calendar to contact Jeffrey Sochrin at Island92 concerning advertising opportunities in the calendar and on the station, which has an enormous listenership both on the island and among SXM tourists from around the world. Readers can also listen live to Island92 at www.island92.com. The entertainment calendar is also frequently broadcast on their two radio stations.

41. Help Us Celebrate 7 Million Visits to our SXM Site...

43. SkyMed Q&A / FAQ - Frequently Asked Questions

SkyMed® FREQUENTLY ASKED QUESTIONS

Answers to Common Questions

This document contains general SkyMed information in answer to common questions. SkyMed's services are defined by its Member Services Agreements – plain English documents that tell you what you get and how it works (see much more info below). As always, SkyMed offers a 30-day “Free Look period,” so if for any reason you're not satisfied with your unused SkyMed protection before 30 days have expired, SkyMed will refund your money.

Q1. Does it cover my trip to...?

1. Basic short-term and annual “SkyMed Takes You Home®” protection applies throughout the USA (all 50 states), Canada, Mexico, Bermuda, the Bahamas, and all the nations of the Caribbean. Global Emergency Travel Services (G.E.T.S., a subsidiary of SkyMed) protection is available outside the USA, CANADA, MEXICO, BAHAMAS, BERMUDA, and the CARIBBEAN (the rest of the world), however neither SkyMed nor G.E.T.S. covers trips to nations on the U. S. State Department's then-current “Do Not Travel” list – North Korea, Iran, and Venezuela currently, for example, and several others. Before planning a trip, check that list if you have any question about whether protection is provided for your destination – or call SkyMed directly during normal office hours (Mountain Standard Time) at 480 946 5188 or 1-800-475-9633.

Q2. Who is protected?

1. “Single” protection is available for individual travelers. “Family” protection includes your spouse or domestic partner and your young children up to 18 or 24 if they are full time students.

Q3. Do I need to call SkyMed before traveling outside my home country?

1. If you're traveling during the normal high season for travel to your destination, no. If you're traveling to your destination during its low season, do call SkyMed Member Services at the 800 number in the first question and let them know.

Q4. What if I'm going to a country not listed above in question 1?

1. Then you'll need (G.E.T.S) protection. If you have one of our Ultimate multiyear memberships, (G.E.T.S.) protection is included. On Annual (one-year) memberships, “G.E.T.S.” protection is an inexpensive option.

Q5. What's the difference between “short term” and “Annual” or multi-year protection?

1. Short-Term protection is intended for brief trips, say a week or two. Like Annual protection, it “Takes You Home®” to doctors and hospitals you know and trust when you suffer a serious or critical illness or injury while

traveling. Preexisting medical conditions are covered from day one with the short-term plan. It's inexpensive, only \$15/day for family protection. Remember, though, that Annual and Multi-year Ultimate memberships cost much less – only about \$1.35/day for family plans. Plus, they're guaranteed renewable without regard to advancing age or declining health. If you get a short-term plan, once it has expired, it is done, and you must reapply and requalify for another when you next travel. With Annual and multiyear Ultimate memberships, all you need do is renew before the renewal deadline – no need to reapply unless your membership has lapsed and the grace period has ended.

Q6. Is there an age limit for applications?

1. There is no age limit to apply. There's no age limit on renewals, either.

Q7. Can you cancel my protection at a certain age or if I get really sick?

1. Annual and multi-year Ultimate memberships are guaranteed renewable, as noted above. They will not be cancelled simply because you're a certain age or because your health has changed.

Q8. Will you raise the price of my membership at a certain age or if I get sick?

1. Once you're a SkyMed member, at renewal time you'll pay the same low renewal fees that everyone else with your type of membership pays. If you join at age 75 or older and purchase the X-Pat plan because you live in Mexico, the Bahamas, Bermuda, or the Caribbean, the X-Pat plan is more expensive than the standard traditional (Annual or multiyear Ultimate) plan.

Q9. What exactly does SkyMed cover? Is it health insurance?

1. You'll find an overview of all key SkyMed Features & Benefits here:
<http://www.everythingsxm.com/sxmweeklynews/SkyMedServices.pdf>

This is the same list you'll find on the back of our current membership applications. SkyMed provides up to 18 benefits related to medical evacuation if you suffer a serious or critical illness or injury while traveling. It is not health insurance – in the "SkyMed universe," SkyMed *Takes You Home*® to doctors and hospitals you know and trust, where your health insurance works.

Q10. What about pre-existing conditions? Are they covered?

1. Yes: for short-term memberships, medevac protection (including items listed in the answer to Q9, above) is included for critical illnesses or injuries related to pre-existing and non-pre-existing conditions. For Annual and multiyear Ultimate memberships, pre-existing conditions are covered after a brief 90-day waiting period.

Q11. I want guaranteed renewable protection because of my age, but I'm going on a trip sooner than 90 days. What can we do about that?

1. Get our inexpensive short-term membership to cover your near-term trip, including medical evacuations for serious or critical illnesses or injuries due to pre-existing conditions. At the same time, apply for an Annual or Ultimate membership, to kick in once your near-term trip ends.

Q12. I'm not traveling for a while. When should I apply?

1. Get SkyMed before you need it – just like fire insurance. Since you don't know when you'll need it – and since health can change in a heartbeat thanks to falls, accidents, or other issues – it's always better to do it sooner rather than later. Beyond that, if you have pre-existing conditions and get SkyMed Annual or multiyear Ultimate medevac protection now, that 90-day exclusion period for pre-existing conditions protection may well be finished by the time you travel.

Q13. What kind of questions do you ask in your application? Do you send somebody to do a medical exam?

1. There's no medical exam. Our application is simple, asking about hospitalizations in the last six months, your current medical conditions, and your prescriptions – and on the prescriptions, all we need is their name, not dosage info. If you have a complex medical history, SkyMed may ask for a "HQ" (health questionnaire) to be completed by your doctor and submitted to SkyMed by fax. You should also have your passport number handy; we record it so it's there in case you need help outside your home country.

Q14. How long does it take before I hear whether I'm accepted?

1. Generally just a few business days, but it's always best to do your application early to ensure sufficient time for processing.

Q15. I have more questions. Where do I find the answers?

1. SkyMed Ambassador Jeff Berger, located in Massachusetts, will be happy to answer your questions. Call his private line at 508-747-8281.

Q16. Can I sign up online?

1. For fastest results, we always suggest you contact us directly. We've done thousands of applications and can whisk you through the process in minimal time and with minimal bother. To get additional information first and see some customer stories, check our site, www.skymed.com/jmb . But to sign up, always call 508-747-8281. The process normally takes about 10 minutes, if that.

Q17. Who can get SkyMed?

1. SkyMed is available to residents of the USA and Canada, and to X-Pats living in the countries listed in Q1. X-Pat protection is necessary if you live outside the US or Canada for six months or more, in aggregate, in any 12-month period. Always notify SkyMed if you move.

Q18. I have a rather deep medical history. Will SkyMed still accept me?

1. Although SkyMed accepts the vast majority of applications, others do get health questionnaires (see Q13) and occasionally some do not qualify. There is no cost to apply if your membership application cannot be accepted. A history of a heart attack or cancer several years ago or other maladies does not automatically signal any issues for SkyMed. Apply – there is nothing to lose (again, no charge if you're not accepted). And as we noted in Q6 there is no age limit to apply and no age limit to renew.
