SECTION 1: Getting Here: Flights, Airlines, Airports, Cruises, Weather, and COVID-19

GETTING HERE:

1. About "Vaccination Passports"

The idea is simple enough: enable people who have been fully vaccinated against Covid for the requisite

number of days to carry digital documentation that proves their vaccination status, enabling them to move freely both inside the United States and elsewhere.

The execution, however, is incredibly complex.

First, it brings forward, some people say, the frightening specter of government control of travel based upon health, potentially throwing disadvantaged people under the bus. There is also the concern about "big brother" controlling freedom of movement and gathering information about the whereabouts of citizens.

Second, there is the additional specter of counterfeiting — potentially sick or infected people traveling freely using a bogus vaccination passport and causing yet another surge in Covid cases wherever they go.

Vaccination Passports are on the move outside the US, but not yet in St. Maarten. Both sides of the island have fortified their borders against the potential arrival of people who are infected with Covid. To protect their borders, they have established entry requirements which are detailed not only here in *SXM Weekly News* every week, but also in the Guide to Entry Requirements file in the Files area of our [Everything SXM Facebook Group](#).

We are certain that there must be concern on the part of SXM government officials that *potentially changing entry requirements which have been quite effective could have negative impacts*. In addition, the US federal government is talking about setting standards for Vaccination Passports but has not yet set standards, and different states are taking different measures in that direction. The result is a hodgepodge of regulations many of which, we fear, will prove to be half-baked.

For now, the Vaccination Passport is something to be aware of but not necessarily something to act upon — not yet anyway. It does bring with it serious personal information disclosure concerns, on the one hand, and counterfeiting concerns on the other. We will continue to watch what happens with the Vaccination Passports concept and will keep you informed. We do suggest you simply keep aware of them right here in *SXM Weekly News*. Most important, become fully vaccinated as soon as you can to protect yourself against Covid and be ready should safe, effective Vaccination Passports become available later.

2. Does "Filling" Airline Middle Seats Matter?

Commercial airline cabins, as we have reported here before, are remarkably safe places to be. The air in most passenger airliners flows from the top of the cabin to the floor, is cleaned by hospital-grade HEPA filters, and is completely changed about every three minutes. That means, in theory, if someone is sitting in the middle seat beside you, chances are airborne pathogens they may be exhaling will hit the ground before you can inhale them. As has been stated elsewhere, facemasks certainly help protect you and are required on board airliners.

So, does the fact that more airliners are moving toward filling middle seats really matter?

We're not medical experts so we don't know. However, the fact that cabin air flow goes from the top of the cabin to the bottom where it exits and the fact that cabin air changes about every three minutes both lead us to feel that airplanes are safe to fly on. That's particularly true if you're wearing a mask, as required, and of course if you have been fully vaccinated.

Beyond that, airplanes to SXM are still not particularly full at this point, with perhaps two thirds of airplane seats empty on many flights. People tend to spread out in airline cabins and as long as weight distribution and balance are good, the airlines don't particularly care. This form of social distancing plays in favor of healthy trips.

Bottom line, airline comments that they may be filling middle seats don't seem to mean much right now because of airflow, passenger load, masks, and vaccinations.

3. Why You Should Buy Your Plane Tickets NOW

It wasn't too long ago that airline tickets were remarkably inexpensive, as airlines worked hard to lure people back into their aircraft. In fact, in recent weeks over a million passengers went through US airports during the weekends.

Seat demand is spiking as airlines welcome previously mothballed planes back into their fleets, recall furloughed flight crew members, and start raising prices instead of lowering them.

For that reason, if you're planning to fly within the next 12 months, you would probably be well advised to get your tickets now, since fares are unlikely to get lower anytime soon....

4. Our "Complete Guide to Entry Requirements" Can Help Get

You Here Now (Revised 4/5/21)

If you are contemplating coming to SXM now or later to relieve your year-long cabin fever, our complete **Guide to Entry Requirements** in every issue of *SXM Weekly News* can help you get here now. Not only does it show you all the entry requirements in detail, it also delivers clear answers to your questions, greasing the skids for the entire process of traveling back to SXM. Rely on it: it can make things a lot easier for you.

WEATHER:

5. 2021 Hurricane Names Now Posted in Our SXM Weather Center / Hurricane Center

Things are changing around the National Hurricane Center (NHC), and here are three things you will notice that are happening this year:

First, because there have been so many storms the last few years, you will notice a number of new storm names in the official list for 2021 that we've now posted in our weather center/hurricane center in our main SXM website, everythingSXM.com.

Second, in recent years when there have been more hurricanes than names created for them, the NHC has continued naming storms using the Greek alphabet, quite a bit of which was used this past hurricane season. The NHC now says that it will not use the Greek alphabet again, but will instead issue a new list of names for storms forming each season after that season's initial list of names has been exhausted. So, the NHC says goodbye Greek alphabet.

Third, in recent years some storms have formed in advance of the official start of hurricane season. The official dates are June 1 through November 30 each year, but climate change has led to the formation of storms in advance of June 1 on several occasions in recent years. Consequently, the NHC has announced that effective this year it will start issuing Tropical Outlooks beginning May15 instead of June 1. That is just a bit more than a month away.

Our hurricane center/weather center at everythingSXM.com includes automated links for showing you Tropical Outlooks, watches, warnings, and advisories for up to six storms simultaneously during the coming hurricane season — something you will quickly find when you familiarize yourself with our weather center.

We will issue more information concerning hurricanes here in *SXM Weekly News* as warranted, but in the meantime please see our [Everything SXM Facebook Group](#) where we intend to post all watches, warnings, advisories, etc. when they regard a system that could potentially affect SXM. That does not usually happen until mid-August at the earliest so if you're planning a trip between now and mid August — don't worry, be happy -- and go.

6. How Crown Weather Can Help You Through the Coming Hurricane Season

Our chief meteorologist Rob Lightbown, who heads private forecasting service Crown Weather (www.crownweather.com), provides valuable information around-the-clock to subscribers to his remarkably inexpensive private forecasting service.

If you live or work anywhere along the US East or Gulf Coast or the Canadian Maritimes or in any part of the Caribbean, you know that your area can be a prime target for a future hurricane. [Rob Lightbown is the go to Meteorologist for accurate, current, incisive information about where storms are going and when: in fact that is how other Meteorologists characterize him when asked about his capabilities.](#) It's also why we chose him a number of years ago and have been subscribing to his services ever since.

If you live in the described areas, we urge you to become a direct subscriber to crown weather's services, which can be worth far more to you, your family, and your business/practice as the season unfolds. For more information, see www.crownweather.com.

7. Where to Find Current SXM Weather Info (Revised 3/8/21)

You'll find detailed observations and forecasts by visiting our main SXM website, www.everythingsxm.com.

Here are four more sources of current weather info:

- 1) [Crown Weather Services](#) whose very inexpensive subscription service is, we feel, the best in the business.
- 2) Our "Weather" page at www.everythingsxm.com -- it has current satellite images and radar loops and now all the latest NHC weather forecasts, outlooks, and advisories as well. There are now also active weather widgets on the site's home page.
- 3) Our [Everything SXM Facebook Group](#), which publishes the latest advisories, watches, and warnings when SXM is threatened by any storms.
- 4) **On or off the island, listen to Island 92** -- 91.9FM or see www.island92.com. They report island warnings at once and know exactly what's going on. You can listen on the web anytime through live streaming.
- 5) For a quick look at weather radar exactly where you are or where you're going, try the My Radar phone app or My Radar for Windows -- excellent programs.

Get a quick, current satellite look at the Atlantic basin anytime: <http://www.goes.noaa.gov/GIFS/ATWV.JPG> .

N. B.: *Again...Never rely on any website if you're in the path of a storm; always heed warnings from local authorities.*

Download your own NHC Hurricane Chart:

Years ago, before we were all saturated with weather information from cable TV to local (redundant and repetitive) news and forecasts plus weather updates and bulletins on our smart phones, gas stations and television stations offered printed hurricane tracking charts so people at home could try to figure out for themselves whether they were about to get slammed by the latest hurricane.

We haven't seen hurricane tracking chart handouts for years, but if you want one they are easy to get. The exact charts used by the National Hurricane Center (NHC) are now available for download from the NHC [here](#). Select "Atlantic" and you're good to go. You can print out the chart and use it repeatedly, or simply print a bunch of them and use one for each storm that may approach an area of interest -- like, SXM. You might want to print a few of these now and *not* save doing that for later.

COVID-19: General Information

8. For Americans, NO Worries on Getting Tested Before Going Home

SXM resorts have responded quickly and forcefully to the recently announced requirement by the US for returning citizens to obtain negative Covid tests before flying home to the USA.

The island has gone after many additional tests to make sure it has an adequate supply and can respond to the needs of tourists. In addition, Simpson Bay Resort has established a new testing lab adjacent to its member services operation next to Hollywood casino at the center of the resort. The facility has specific hours (call for details), and use of it is not limited only to Simpson Bay members.

There is a charge for testing regardless of where you get it. Do not expect the cost of travel-related testing to be paid by your US health insurance. Pricing varies. Your resort will have information about this; it may be useful to make an appointment for your pre-return Covid testing at the beginning of your SXM stay, if you're going to be here for only a

week or so.

9. NO Federal US Quarantine Now Required

Despite the January Biden announcement, no Federal US quarantine is now required after returning home to the US following some overseas trips. That situation could change but as of right now, there is no quarantine.

That does not mean that you don't have to quarantine when you get to your state since some states either require or recommend quarantines after you return home. See your state government web portal for information that pertains to you.

10. Simple, Fast, Cheap Covid Insurance Now Required

See the story in our Guide to Entry Requirements, below.

11. IMPORTANT! Why It's So Critical to Double-Check Everything Before Submitting Your Pre-Approval App:

Although our complete **Guide to SXM Entry Requirements**, which begins below, tells you everything you need to know to navigate the requirements successfully, the bottom line is that you must double check everything you are submitting to the EHAS portal very carefully before hitting the SUBMIT button. **In the vast majority of cases, when applications are denied, the cause is traveler error** — either incorrect or incomplete information is being submitted or information is not being submitted in the proper format. That's why it is so imperative to ensure that you double check everything before submitting your preapproval application to EHAS.

Our **Guide to Entry Requirements**, which is below, has all the info you need to do this successfully.

12. What to Do If One of You is Denied EHAS Preapproval & The Other Is Accepted (Updated 3/15/21)

Although this rarely happens now thanks to the fact that the EHAS system has already been staffed up (and staff continues to be augmented due to rising demand), EHAS is manned by humans, not computers, and in rare instances these humans may make mistakes. Although it does seldom happen, in rare cases husband-and-wife or other partners or friends may submit identical applications with identical negative Covid test results both of which meet all requirements — and one may be approved and the other denied.

If this happens to you, check your application completely to make sure it meets all of the requirements described in precise detail in our **Guide to Entry Requirements** published in the Files area of our [Everything SXM Facebook Group](#). If it does, and if time allows (for example, if your flight is at least a day or two away), resubmit your application after checking it very thoroughly after waiting at least four hours for a response from EHAS. We have had people submit applications three times, receiving their approval after two denials. Incidences are rare but they do happen. **Do NOT resubmit continuously** -- that clogs the system and delays response for everyone.

If you are within a day of your flight and have received multiple denials after carefully checking your application to make sure it meets all qualifications, PM Jeff Berger directly in Facebook messenger and give him all the details and copies of all the PDFs of all your forms. Do not send images either to EHAS or to us — you must send PDFs, which are clearer and more usable (that's what we instruct in our Guide, below). JPEGs (photographic images) are a sure way to get a rejection. Jeff will see your message within a few hours at the most and will try to help everyone in this situation, with priority attention always given to members of our JMB Website Supporters island discount program through its Ombudsman benefit. We do work as quickly as possible to help you but we cannot guarantee any results -- though we do have a pretty good record.

13. Can You Get a Covid Vaccine Shot in SXM? (Updated 4/5/21)

A number of tourists who spend several weeks on the island every year have asked us whether they can get Covid vaccine shots while in SXM. The answer is NO. Vaccines are now being distributed here and they are being given

out in priority order to healthcare workers/1st responders, then the elderly and people in nursing homes, and then to the general population of residents — pretty much the same order as in the US.

Foreign non-residents are not covered. Attempting to get the vaccine in SXM when you are not eligible to get it takes away a chance to be immunized for someone who lives in SXM, which would be unfair to locals.

If you are a resident of SXM, that's a different story; SXM residents, contact your healthcare provider for more information.

14. If You've Had the Vaccine, Do You Still Have to Test Negative?

Covid vaccines currently available apparently do not prevent you from getting Covid — they simply reduce the severity of your illness but while you have it, even asymptotically, you may be contagious and spread it to others. That's why having had the vaccine is insufficient to enable you to enter St. Maarten, and why **you must test negative** as described specifically below in order to be given preapproval to enter St. Maarten. There are currently no exceptions.

COVID-19: Guide to Entry Requirements - Please Read and Retain - REVISED 4/5/2021

15. Guide to SXM Entry Requirements (Updated 4/5/21)

See other stories in this issue re: the new requirement on SXM for Covid Insurance bought from the island, now in effect.

Also:

Effective November 25, SXM began to accept rapid antigen tests taken within 48 hours of departure in addition to RT – PCR tests taken within 120 hours of departure. Full information, updated to reflect this major change and listing the types of antigen tests accepted, is in the Covid area of the FILES in our [Everything SXM Facebook Group](#) (and is also below). That file has been completely updated to reflect the newly revised testing requirements.

For current information on exactly what the entry requirements are in SXM, please see [this Dutch-side government site](#). It's operated by the SXM government and it also includes individual forms you must fill out online in advance to get advance approval to enter the country, and where you also are required to upload your RT PCR or Antigen test negative results. If you don't do that, or if you send results in a form that is not acceptable to the island, you will not be allowed to board your flight.

That site is also where you are now able to sign up for the now required Covid insurance once you have uploaded your negative test results.

16. LIST OF ACCEPTABLE TESTS for Entry to SXM

As of February 17, 2021, passengers arriving from the United States of America and Canada can use all FDA approved rapid antigen tests for travel to Sint Maarten. This includes those antigen tests with Emergency Use Authorization (EUA) as well. This does not include At Home Tests. Any hand-written forms reporting COVID results ARE NOT accepted. Proof of vaccination against COVID is NOT currently accepted as an entry requirement.

"PCR" is an acronym for **polymerase chain reaction**, and "RT" refers to **reverse transcription** -- NOT "real time". The only types of test for Covid-19 currently acceptable to the government of SXM are both RT-PCR and the Antigen tests now noted above.

17. Finding & Taking RT-PCR or Antigen Tests in Your Area (Revised 4/3/21)

You must have a negative RT-PCR test taken less than 120 hours before your departure to SXM, or your Antigen test taken less than 48 hours before your trip. If you're on a connecting flight, this requirement relates to the departure of the final leg of your trip.

Where do you find a test in your area that will be able to deliver results to you within the required 120 or 48 hours? There are a number of ways to find out. You can ask friends who travel from your area; you can ask people on a website in your community where local people discuss local goings-on (that often works well); and you can also ask your primary care physician or ask in our [Everything SXM Facebook Group](#).

Covid tests taken for travel purposes are not always paid for by insurance. You might ask your PCP to send an order in to a local laboratory for testing for you — those will often be covered by insurance and results are very often posted at once when ready on the lab's or hospital's portal. You can download complete results in PDF format.

The requirements from SXM specify what information must be in these reports — things like the name of the lab, lab location, date and time of test, type of test (RT-PCR or Antigen), your name, and the result of your test. Once you get the PDFs for you and all of the people traveling with you, print them out and keep them with all the trip documentation that you will be taking with you — you will need them.

More on the Application for Entry into SXM and how the PDF relates to that application is below.

18. Applying Online for Admission to SXM: What & How, w/ Advice

The government of SXM wants to keep out people who are sick with Covid — that's what all this is about. You must apply online for admission to SXM once you have negative results back of your PCR or Antigen test. If you have a positive result, you will not be admitted to St. Maarten.

Go to [the same website where you learned about entry requirements](#) to apply for admission. It is absolutely required and if you are not preapproved for admission you will not be able to get on your plane to go to SXM. The application will take you only a few minutes to fill out. It asks for your name, email address, the usual questions about whether you have any Covid symptoms or have been near anyone diagnosed with Covid recently, plus where you plan to stay on the island. It also asks you for the airline and flight number of your flight departing to SXM, and the departure date. (Remember the 120 hour or 48 hour requirement.) **CHECK EVERYTHING YOU ENTER VERY CLOSELY TO ENSURE YOU ARE NOT SUBMITTING ERRONEOUS INFORMATION.** Submit the application form from the website to EHAS by clicking a button. You will usually hear back in a few hours or overnight if you submit the form fairly late at night. **Allow 12 hours for EHAS to reply, though usually it's no more than 4.**

To make sure you get the paperwork approved as quickly as possible, we suggest you get your test taken several hours below the 120 hour threshold ahead of the time of your departure to SXM (48 hours for Antigen test). That should give the laboratory plenty of time to get things to you so you can immediately file the application and get the information to EHAS, giving them as much time as possible -- again, they say to allow 12 hours for processing. Their responsiveness is usually excellent. If two or more people are going, we strongly suggest that you send the applications each using a different email address — that way, when you are asked to report your temperature every day, you will know which person in your party is being asked to reply to a specific email from EHAS. Overall, though you may be put off by the thought of having to do this process, it's quick, simple, and easy — and as we said the responsiveness is outstanding. Just do it — not a big deal at all.

Important: During this process, you will be asked to sign up for the required Covid insurance sold online by the island while you are applying for preapproval through EHAS. The process takes only about one additional minute for each person who is applying for preapproval. The insurance covers you on both sides of the island and costs only \$30 per person for trips lasting from a few days to up to 180. *It is required.*

19. Required Covid Insurance Information (Updated 3/8/21)

Here is the island's formal announcement:

**** Vacation Safe in St. Maarten with the SXM Protection Plan ****

As of January 11, 2021, St. Maarten will roll out the SXM Protection Plan, a mandatory health coverage for its visitors that is very affordable and assures the tourist a relaxing and safe vacation. Due to the COVID-19 pandemic, St. Maarten wants to ensure that all visitors are properly protected, and have an advanced protection in case they test positive while vacationing on our friendly island.

A visitor who tests positive for COVID-19 in St. Maarten, will have very few, if any, out-of-pocket expenses, giving the visitors a peace of mind in case they test positive, and if they cannot be assisted in St. Maarten, the SXM Protection Plan covers also medical evacuation costs. The overall maximum limit for all benefits together, except Medical Evacuation, is \$50,000. Emergency medical evacuation to the nearest qualified hospital to prevent loss of life, is up to a

maximum limit of \$20,000, provided the patient cannot be treated locally in St. Maarten.

In case of hospitalization, the expenses to treat severe COVID-19 symptoms includes specialist fees, diagnostic x-rays, lab expenses and nursing costs. Costs of specialized transportation of a Covid-19 infected person. It also covers a maximum sublimit of \$125 per day, max. 14 days, in case of a positive Covid-19 test result. Intensive Care Unit charges for treatment of a critical ailment caused by COVID-19. Costs of doctor consults. Max. 4 medically necessary Covid-19 tests as outpatient with a sublimit of \$75 per test.

Tests are only covered with referral from the St. Maarten Government Health Department. Emergency medical evacuation to the nearest qualified hospital to prevent loss of life. Preventive government mandated quarantines for fellow travelers and those who tested negative are NOT COVERED.

The insurance is required for all foreign nationals with the exception of residents, visitors who arrive, leave the same day, crewmembers and transit/transfer passengers who do not need to recheck their luggage.

The St. Maarten Visitors Protection Plan sold and processed via the mandatory online health form on www.stmaartenentry.com

*For detailed information on the St. Maarten Visitors Protection Plan please visit www.sxmprotectionplan.com
About St. Maarten: St. Maarten is the smallest island in the world to be shared by two nations – Netherlands and France – creating a destination with European charm and Caribbean flair. Located at the northern end of the Lesser Antilles, the islands 37 square miles has 37 breathtaking beaches and is home to many historical and family-oriented attractions. Direct air service is available to Princess Juliana International Airport from major U.S. and Canada, South America, Europe and the Caribbean gateways.*

Two important comments from SXM Weekly News:

- a) You do NOT have to re-up with this insurance after taking day trips to a neighboring island.
- b) This insurance DOES cover you on both the French & Dutch sides of the island.
- c) PRINT OUT your policy information when you receive it after signing up, and TAKE IT WITH YOU on your trip along with your preapproval email and your accepted negative Covid test.

20. *VERY Important***: Avoiding Common Mistakes That Cause Denials (Updated 4/3/21)**

There is often a common thread influencing denials. But since it is a human process, in rare cases human error can occur.

First, we'll deal with the common threads.

When submitting your negative PCR or antigen test in PDF format, **make sure it is done in PDF format** — not a picture or JPEG. JPEGs can be very difficult to read and that could be the basis of a denial. All of the required information is, of course, required information.

So, create a checklist from the information you see in this Guide and follow it to the letter when submitting your data. In fact, it is wise to find out what format your report will be in before you take the test, to ensure that the report will contain all the information SXM requires. That's not as difficult as it may appear, since most laboratories now are accustomed to issuing negative reports containing all information required for travel. Just be sure in advance that your report does include everything SXM requires. We often see prospective tourists send us applications they have submitted that were denied --many containing handwriting which is not allowed according to the requirements. No handwriting means no handwriting.

Second, sometimes you don't receive a response within several hours of submitting your application. **If that happens to you, double check your application again very closely to make sure that it conforms to all applicable requirements. Then and only then, resubmit the application** — and double check your email address to make sure it is spelled correctly since obviously, incorrect email addresses don't work. Check your passport number too as you wrote it in the online application -- if it's one digit different from your actual passport number, you aren't going to SXM. **NOTE: The response may go into your SPAM folder, so check there before you start panicking.**

Third, as we said, in rare cases human error can play a role in denials. EHAS has staffed up to help ensure its ability to provide quick, responsive, and accurate service to all applicants.

Fourth, sometimes you and your spouse will take tests at the same time from the same people and receive the same negative results. One of you will submit an application which is approved and the other may be denied. If time allows, resubmit the declined application after making absolutely sure that it is accurate and complete and meets all

requirements. However if time does not allow that PM Jeff Berger through Facebook Messenger (not by email or phone) and give him all the information you sent to the government including that an identical application had been sent in and approved. There are no guarantees but we will try to help. If you don't have Facebook, get it — that's the only way we can handle these situations expeditiously. (We get just under 5000 emails a day and have filters for them so we can't guarantee we would receive your email inquiry, which is why we are requiring you to respond to us by Facebook messenger.) N. B.: We do NOT check it every two minutes, so don't expect an instant reply.)

21. What to Take With You When You Go (An Important Checklist)

Everything on this list is essential for you to get on your airplane and fly to St. Maarten. You may wish to print this and use it as a checklist before leaving for the airport:

- a) Your passport and boarding passes (per usual);
- b) printed negative test results on laboratory stationery (this is the PDF form at the lab should send you to inform you of the results of your test; the test results form must include the information specified as required by Sint Maarten EHAS)
- c) the travel Pre-Approval form emailed to you by Sint Maarten EHAS in response to your submission of the negative Covid test (assuming your application was preapproved); this provision is not yet active.
- d) a thermometer, which you will need to take your temperature and that of your traveling companions during the first 14 days of your trip.

22. What to Expect When Arriving at SXM Airport

The second floor of SXM Airport, where the jetways go, is still not open, but the airport says the work on them is progressing. It's our intent to get with the people of the airport to obtain the latest information about the status of the jetways in the second floor as well as preclearance — and to find out when the airport will actually reopen as it was before hurricane Irma hit more than three years ago. For now, all services continue to be conducted on the first floor of the airport — both departures and arrivals.

Unless your arriving plane parks a very short walk from the current arriving passenger entry to the terminal, you'll exit your plane and walk directly to one of the shuttle buses that will take you to the terminal entry. Wear your mask, of course: there is no such thing as social distancing aboard the bus — but the trip is only about two minutes long and everyone is required to wear a mask anyway. People should maintain social distancing on their way through immigration and into the baggage claim area.

It is essential for you to have all of your documentation PRINTED AND IN HAND when you go to immigration. We explain what that documentation is in the Covid section, above. Keep it handy because you will be asked for it. Your temperature also will be taken by a touch-free monitor and you will be asked the usual health questions to which you will be accustomed by the time you get to immigration.

Although it may or may not be mentioned to you as you go through immigration, you will be receiving email daily or thereabouts from Sint Maarten EHAS, requiring you to report your temp and to indicate whether you have any symptoms of Covid. You then click the appropriate button to send the documentation back to the island government. Filing these reports for 14 days is required by all visitors regardless of whether you receive the email from Sint Maarten EHAS. Consequently, it's important for you to save the emails you receive from the government and reply to them first thing every morning: you can use the first email you receive for subsequent replies even if you don't receive daily emails. The form you fill out online will nonetheless change to reflect the day of your vacation (day one, day two, day three, etc.) Your finish filling out and sending the form within about seven seconds — and a thermometer is shown in our list of things you must take to St. Maarten to record your temperature. EHAS expects you to take your temp and submit your info daily first thing -- before breakfast.

23. Reporting Your Condition to EHAS for 14 Days (Revised 4/3/21)

Once you have arrived in St. Maarten, EHAS will email you a notice with a link to their site. You are required to click the link which takes you to a very brief online form which asks you to record your temperature and whether you have flu like symptoms that morning before having breakfast. You then click a button in the online form to send its results back to EHAS. The form specifies is what day of your vacation the report is for — day one, day two, etc. If you receive an

email the following day, follow it just as you did the first day. *If you don't, however, go back to the email you received the first day and click that link again — it will take you to the form you can use for day two or subsequent days.*

You must take your temp each day, which is why we said to take a thermometer with you. The current requirement is that you do this for 14 days. It takes less than 30 seconds each time and is simple, easy, and fast. During a global Pandemic, SXM is doing everything possible to ensure everyone's good health.

36. Soufriere Volcano in St. Vincent is Rumbling

The Soufrière volcano in St. Vincent, about halfway down the Windward islands Archipelago from SXM, is rumbling — but it's not something that should be of any significant concern to anyone contemplating a trip to SXM. 37. Celebrity Millennium Home Ports in SXM; Sailing Starts 6/5

38. Heads Up: Sea Turtles, Mammoth Whales In SXM Waters

Sea turtle nesting season has begun again on the beaches of St. Maarten. If you see areas marked off where sea turtles are nesting or sea turtle eggs have been laid, stay away. Sea turtles are critically endangered creatures and need to be left alone to get into the ocean and live their lives.

In addition, this is also the time of year when whales are in nearby waters headed to their summer habitats off the coast of the US Northeast. See experienced captains like Neil Roebert of the Enigma C3 at www.sailStMaarten.com who knows how to quietly sail to the area off the northeast coast of the island where some transiting whales have already been spotted. Take your camera if you are visiting SXM soon and are lucky enough to be on one of these cruises. Dolphins have also been seen in the area.

39. Spiga Restaurant Reopens in Grand Case

The renowned, multi-award-winning [Spiga Restaurant in Grand Case](#) at the northern end of Boulevard de Grand Case diagonally across the street from Tijon Parfumerie, has reopened after being closed for nearly a year due to the Covid pandemic.

Although it was closed on Easter Sunday, the restaurant reopens as usual on Monday. For much more information, please see their website, Spiga-SXM.com (being updated shortly).

In our humble opinion, Spiga for years has been the best restaurant of any kind in Grand Case and one of SXM's top three restaurants of any kind -- and it just keeps getting better.

40. Where's The Best SXM Sunday Brunch?

It should be no surprise that the best Sunday Brunch on SXM is available every Sunday until 2 PM at Mario's Bistro at the Cliff in Cupecoy beach. Advance reservations are absolutely essential, so call their Dutch side number 1 721-523-2760 any day at lunch except Monday when they're closed — call from noon to 2 PM or call from 6 to 10 PM nightly except Monday to make reservations. To avoid confusion, the restaurant does not have an answering machine.

If you want to walk in to make future reservations, that is welcomed as well during the hours mentioned; however, the odds of getting a seat the same day you come in are small since the restaurant is consistently very busy.

For lunch during the Sunday Brunch, try the Mahi sandwich — it may well be the best Mahi you have ever had....

Another great spot for a Sunday brunch is the new Astra Steak & Seafood Restaurant in Simpson Bay, near the entrance to Isle de Sol Marina. They just started serving breakfast a few weeks ago and Sunday Brunch was their first offering. Excellent restaurant, highly recommended as well.

41. Police Taking Action Against Vehicles on the Boardwalk

(From SXM Police, KPSM) --- The uniform division of the Police Force of St. Maarten (KPS) has taken measures against traffic on the Boardwalk. This morning the alley next to Sea Palace Hotel was closed with gates. This passage is frequently used by motorized traffic, especially on Sundays. Police received many complaints from restaurant owners on the Boardwalk and Walter Plantz Square about the dangerous situation. Last Sunday there was a birthday party on the beach near the pier. Children ran down the Boardwalk while a group of young men had gathered there with scooters and motorcycles. They used the Boardwalk for their bike stunt races.

For some time now, it has been custom for people to park their cars on the Boardwalk. On the past Sundays, between fifteen and twenty cars were parked near Walter Plantz Square. Several of those cars loaded with soda, booze and meat for the grill; barbecues are held on the beach on Sundays. Restaurant owners complained that tourists stayed away on Sundays and they had almost no turnover. The beach guests on Sundays brought their own drinks and food, and the music from jukeboxes in the parked cars drowned out the music from the restaurants. At the end of the day, the beach was littered with beer bottles, cans and plastic. In several places there were heaps of black coal in the sand. Police are surveilling the Boardwalk today. After the alley next to Sea Palace Hotel was closed to traffic in the morning, the first tourists arrived on foot towards Walter Plantz Square.

42. Great Beach Reading: *Escape to the Islands* Russell Clark

Author Russell Clark, a long-time visitor to SXM and a homeowner on the island, has written one of the best beach reading books we've seen in a long time, *escape to the islands*.

It Chronicles trips around the island by a group of friends, including visits to their favorite restaurants and jewelry stores and much more. If you don't recognize several names and places mentioned in this novel, you haven't spent enough time on the island. The book is guaranteed to bring multiple smiles and bring back multiple memories of past and present island visits to every reader. It's a fun read from beginning to end, fun reading and highly enjoyable.

It's also part of a series of books that author Clark is working on. You'll see much more about all of this in our everything SXM Facebook group, including information about future books in this series.

44. Join Our New Conversational Everything SXM Group on MeWe, the Facebook Alternative

For years, you have been able to obtain a great deal of SXM information and photos/videos in our [Everything SXM Facebook Group](#). Unfortunately, not everyone is a fan of Facebook, so we have started a new Everything SXM group on a platform that has become a strong competitor Facebook — it is called MeWe.

We urge all fans of *SXM Weekly News* to become members of MeWe and join our group there; [here is the link](#).

45. Going Home? Check Your State's Return Policies

It's essential for visitors returning home to the US to know their home state's policies and procedures for passengers returning from overseas flights well before they head to the airport.

We suggest at least a couple of weeks before your return date that you visit your state's main web portal to see exactly what its requirements are regarding Covid. Some states may require a negative test be taken X number of hours before your return flight; others may require some degree of quarantine, and others may require nothing.

The US REQUIRES Covid tests for everyone returning there from SXM. Details are in our Guide to Entry Requirements, published early in this issue of *SXM Weekly News*. Ask about testing locations on SXM that you can use — to do that, go to our [Everything SXM Facebook Group](#). Please do not ask questions there about your state's requirements — our group is SXM centric and will not accept such posts. Your state's web portal is certainly the best source of current, accurate information about requirements related to returning international passengers.

47. SkyMed Q&A / FAQ - Frequently Asked Questions

SkyMed® FREQUENTLY ASKED QUESTIONS

Answers to Common Questions

This document contains general SkyMed information in answer to common questions. SkyMed's services are defined by its Member Services Agreements – plain English documents that tell you what you get and how it works (see much more info below). As always, SkyMed offers a 30-day “Free Look period,” so if for any reason you're not satisfied with your unused SkyMed protection before 30 days have expired, SkyMed will refund your money.

Q1. Does it cover my trip to...?

1. Basic short-term and annual “SkyMed *Takes You Home*®” protection applies throughout the USA (all 50 states), Canada, Mexico, Bermuda, the Bahamas, and all the nations of the Caribbean. Global Emergency Travel Services (G.E.T.S., a subsidiary of SkyMed) protection is available outside the USA, CANADA, MEXICO, BAHAMAS, BERMUDA, and the CARIBBEAN (the rest of the world), however neither SkyMed nor G.E.T.S. covers trips to nations on the U. S. State Department's then-current “Do Not Travel” list – North Korea, Iran, and Venezuela currently, for example, and several others. Before planning a trip, check that list if you have any question about whether protection is provided for your destination – or call SkyMed directly during normal office hours (Mountain Standard Time) at 480 946 5188 or 1-800-475-9633.

Q2. Who is protected?

1. “Single” protection is available for individual travelers. “Family” protection includes your spouse or domestic partner and your young children up to 18 or 24 if they are full time students.

Q3. Do I need to call SkyMed before traveling outside my home country?

1. If you're traveling during the normal high season for travel to your destination, no. If you're traveling to your destination during its low season, do call SkyMed Member Services at the 800 number in the first question and let them know.

Q4. What if I'm going to a country not listed above in question 1?

1. Then you'll need (G.E.T.S) protection. If you have one of our Ultimate multiyear memberships, (G.E.T.S.) protection is included. On Annual (one-year) memberships, "G.E.T.S." protection is an inexpensive option.

Q5. What's the difference between "short term" and "Annual" or multi-year protection?

1. Short-Term protection is intended for brief trips, say a week or two. Like Annual protection, it "Takes You Home®" to doctors and hospitals you know and trust when you suffer a serious or critical illness or injury while traveling. Preexisting medical conditions are covered from day one with the short-term plan. It's inexpensive, only \$15/day for family protection. Remember, though, that Annual and Multi-year Ultimate memberships cost much less – only about \$1.35/day for family plans. Plus, they're guaranteed renewable without regard to advancing age or declining health. If you get a short-term plan, once it has expired, it is done, and you must reapply and requalify for another when you next travel. With Annual and multiyear Ultimate memberships, all you need do is renew before the renewal deadline – no need to reapply unless your membership has lapsed and the grace period has ended.

Q6. Is there an age limit for applications?

1. There is no age limit to apply. There's no age limit on renewals, either.

Q7. Can you cancel my protection at a certain age or if I get really sick?

1. Annual and multi-year Ultimate memberships are guaranteed renewable, as noted above. They will not be canceled simply because you're a certain age or because your health has changed.

Q8. Will you raise the price of my membership at a certain age or if I get sick?

1. Once you're a SkyMed member, at renewal time you'll pay the same low renewal fees that everyone else with your type of membership pays. If you join at age 75 or older and purchase the X-Pat plan because you live in Mexico, the Bahamas, Bermuda, or the Caribbean, the X-Pat plan is more expensive than the standard traditional (Annual or multiyear Ultimate) plan.

Q9. What exactly does SkyMed cover? Is it health insurance?

1. You'll find an overview of all key SkyMed Features & Benefits here:
<http://www.everythingsxm.com/sxmweeklynews/SkyMedServices.pdf>

This is the same list you'll find on the back of our current membership applications. SkyMed provides up to 18 benefits related to medical evacuation if you suffer a serious or critical illness or injury while traveling. It is not health insurance – in the "SkyMed universe," SkyMed *Takes You Home®* to doctors and hospitals you know and trust, where your health insurance works.

Q10. What about pre-existing conditions? Are they covered?

1. Yes: for short-term memberships, medevac protection (including items listed in the answer to Q9, above) is included for critical illnesses or injuries related to pre-existing and non-pre-existing conditions. For Annual and multiyear Ultimate memberships, pre-existing conditions are covered after a brief 90-day waiting period.

Q11. I want guaranteed renewable protection because of my age, but I'm going on a trip sooner than 90 days. What can we do about that?

1. Get our inexpensive short-term membership to cover your near-term trip, including medical evacuations for serious or critical illnesses or injuries due to pre-existing conditions. At the same time, apply for an Annual or Ultimate membership, to kick in once your near-term trip ends.

Q12. I'm not traveling for a while. When should I apply?

1. Get SkyMed before you need it – just like fire insurance. Since you don't know when you'll need it – and since health can change in a heartbeat thanks to falls, accidents, or other issues – it's always better to do it sooner rather than later. Beyond that, if you have pre-existing conditions and get SkyMed Annual or multiyear Ultimate medevac protection now, that 90-day exclusion period for pre-existing conditions protection may well be finished by the time you travel.

Q13. What kind of questions do you ask in your application? Do you send somebody to do a medical exam?

1. There's no medical exam. Our application is simple, asking about hospitalizations in the last six months, your current medical conditions, and your prescriptions – and on the prescriptions, all we need is their name, not dosage info. If you have a complex medical history, SkyMed may ask for a "HQ" (health questionnaire) to be completed by your doctor and submitted to SkyMed by fax. You should also have your passport number handy; we record it so it's there in case you need help outside your home country.

Q14. How long does it take before I hear whether I'm accepted?

1. Generally just a few business days, but it's always best to do your application early to ensure sufficient time for processing.

Q15. I have more questions. Where do I find the answers?

1. SkyMed Ambassador Jeff Berger, located in Massachusetts, will be happy to answer your questions. Call his private line at 508-747-8281.

Q16. Can I sign up online?

1. For fastest results, we always suggest you contact us directly. We've done thousands of applications and can whisk you through the process in minimal time and with minimal bother. To get additional information first and see some customer stories, check our site, www.skymed.com/jmb. But to sign up, always call 508-747-8281. The process normally takes about 10 minutes, if that.

Q17. Who can get SkyMed?

1. SkyMed is available to residents of the USA and Canada, and to X-Pats living in the countries listed in Q1. X-Pat protection is necessary if you live outside the US or Canada for six months or more, in aggregate, in any 12-month period. Always notify SkyMed if you move.

Q18. I have a rather deep medical history. Will SkyMed still accept me?

1. Although SkyMed accepts the vast majority of applications, others do get health questionnaires (see Q13) and occasionally some do not qualify. There is no cost to apply if your membership application cannot be accepted. A history of a heart attack or cancer several years ago or other maladies does not automatically signal any issues for SkyMed. Apply – there is nothing to lose (again, no charge if you're not accepted). And as we noted in Q6 there is no age limit to apply and no age limit to renew.
