THIS WEEK'S STORIES:

Stories are numbered; scroll down for stories of interest.

SECTION 1: Getting Here: Flights, Airlines, Airports, Cruises, Weather, and COVID-19

GETTING HERE:

1. SXM Flight Demand Surges as Covid Wanes

The United States is SXM's biggest market for tourists -- and all across the US, Covid numbers over the last couple of weeks have been trending downward. Medical authorities seem to be cautiously optimistic that this is not a temporary situation, pointing to markedly increasing numbers of people getting vaccinated as well as the US possibly moving closer to herd immunity.

Tourists are tired of staying home. By the millions, they want to resume their lives and travel to places they love. SXM is one of the places adored by literally millions of people. Now, those people seem intent on returning to the island.

Anecdotal evidence based upon the numbers of people using our [Everything SXM Facebook Group](#), and especially

referring to its [Guide to Entry Requirements](#), tells the story that the numbers of people making concrete moves to return to the island this fall and next winter could lead to the busiest winter SXM has experienced in years.

Please see the following stories regarding the best time to buy tickets and how to get the vacation weeks you want.

2. Reserve Flights NOW to Avoid Rising Fares & Disappointment

Experts observing air travel are saying that skyrocketing demand will lead to fare increases starting as early as the day after Halloween. Increased demand, along with a tight market for pilots is creating a supply and demand situation for airline seats. Now is clearly the best time to buy. Some people are even reporting bargain fares of under \$400 round-trip for flights from JFK to SXM next March. But fares at that level now are the exception. We urge everyone contemplating a trip to SXM to book your reservations now for accommodations and for airfares -- before the costs of both go even higher.

For more information about getting to SXM, please see the remaining stories in this section. For help obtaining accommodations, please see our accommodations section, below.

3. Likelihood of Flight Cancellations Seems to be Declining

From what we are hearing, the likelihood of flight cancellations seems to be declining. Airlines have been working hard to hire and train experienced pilots to meet surging demand for flights. There are plenty of pilots out there, but many accepted incentives to retire early that were offered when the pandemic was at its worst. As a result, airlines had to hire thousands of pilots. Military pilots were readily available, some with experience flying the military equivalent of commonly used passenger aircraft like 737s and 767s. Others needed to be trained for the aircraft types they were being hired to fly.

Flight cancellations or rescheduling can still happen, so login frequently to the portal of the airline you're flying to make sure that your flights are still flying as scheduled. Airlines are not always successful at notifying passengers promptly about schedule changes and flight cancellations, so this is important.

4. Might Delta Do SXM Nonstops from Boston?

A number of years ago, before they happened, we predicted that JetBlue would be flying to SXM from both New York and Boston. At the time, JetBlue wasn't serving SXM at all. We also predicted that they would be serving SXM through Ft. Lauderdale — and we have predicted that Southwest Airlines will before too much longer be serving SXM from one or two gateways, the most likely being BWI.

JetBlue, the number one airline in Boston, now has Delta breathing down its neck there. It appears that by next summer, Delta may overtake JetBlue as the number one airline flying out of Boston according to some criteria. Currently, the only airline flying any nonstops to SXM from Boston is Jet Blue. Might Delta join that list? We aren't going to outright predict Boston nonstops to SXM from Delta, but the market certainly exists. Many passengers originating with Delta or American in Boston connect to flights to SXM in New York or Atlanta from each airline. It's time. The Sr. VP at Delta in charge of route planning is Joe Esposito. If you want those flights to happen, you might send him a letter. More about him is [here](#).

5. See Our "Accommodations" Section for Where to Stay Info

Scroll down this newsletter and check out section 2 of today's issue for very useful guidance on finding places to stay in SXM later this fall or next winter. The information we have should be of significant help to you.

6. Flying to SXM: Testing "Looks" Daunting, But Is Simple

Tourists gravitating toward visiting SXM come to our [Everything SXM Facebook Group](#) with two primary questions and concerns: first, what are the Entry Requirements; and second, how do they ever get through such a daunting list of requirements?

Our [Guide to Entry Requirements](#), available in the files area of our everything SXM Facebook group (you must first join the group to be able to access the files area; to enter, you must answer very brief vetting questions), *greatly simplifies what many may consider to be a daunting list of requirements and we answer questions or clarify the answers to questions repeatedly asked by tourists.*

Although there are a number of questions answered in our guide, the process actually has only four clear steps: first, take the required test; second, submit your negative test results in the proper format to EHAS online, while at the same time buying the required insurance on the EHAS application-for-preapproval site; third, print your preapproval from EHAS and your proof of insurance; and fourth, bring all that with your tickets and passport to the airport. In other words, **test; apply, print; go.**

All the information you need to successfully apply for preapproval to visit SXM is explained in plain English in our guide, which you will find [here](#).

7. Will SXM Soon Require All Tourists to be Vaccinated?

As you may already be aware, a number of countries (currently not including SXM) are requiring that visitors be fully vaccinated before they can visit. We want you to know that we believe SXM is *considering* moving in the same direction. We would imagine that the only thing holding them back now would be the need to ensure that people who say they have been fully vaccinated can prove it by presenting legitimate documentation.

Would SXM also continue to require Covid testing? For now, we are sure that answer would be yes, out of necessity to protect its people from unvaccinated individuals who are currently the source of the continuation of the current pandemic.

The best thing you can do to stay healthy is to make sure you get fully vaccinated soon. Billions of people are doing it with clear advantageous results everywhere. Your cooperation is what will make the need for testing and the need for Entry Requirements yesterday's news regarding Covid 19.

8. Taking Your Temp During Your First Several Days on SXM Is Required

As you will discover when you read our [Guide to Entry Requirements](#) in the files area of our [Everything SXM Facebook Group](#), recording your temperature and reporting it to EHAS is required during the first several days of your SXM visit. EHAS says you will receive an email requesting the information, and you reply to the email with what you have recorded.

If two of you are going to SXM, it is wise to use two separate email addresses when applying for approval to visit. Remember which email address is used for which visitor, since the emails from EHAS are for the person who used that email when applying for approval to visit.

That said, for whatever reason, not everyone receives the temperature-monitoring emails from EHAS. We think it's a bug in their system but who knows.... *In any case, it is your responsibility to record the information and retain it should EHAS have a future need for it.* Inexpensive thermometers that scan your forehead are available at most pharmacies in the US, and it would be wise to obtain one of these before leaving for SXM and put it with your personal care items. Not receiving emails requesting temperature information from visitors does not absolve you of the responsibility to record the information and retain it.

9. Know The Testing Apparatus in Your Area Before You Need to Use It

It makes sense to know what the Covid testing apparatus is in your area before you have to use it. Most of our readers use either Walgreen or CVS for their pre-flight testing according to EHAS guidelines. Both of those national chains require customers to use their websites to make testing reservations.

To get an idea of how far in advance you must make appointments, we suggest you check those sites for availability in your area of the tests you want and see how far in advance appointments are currently being accepted. Keep that information current and handy so that when you actually need to schedule your appointment, you'll be successful at getting the dates you want.

It's kind of like driving somewhere new in unfamiliar territory with or without a GPS. The GPS makes things much easier; current, accurate foreknowledge of the testing apparatus in your area makes scheduling the tests you want far faster and easier.

10. Why Security Aboard Aircraft is Every Passenger's Obligation [AA4817 Sat]

News concerning what exactly happened aboard American Eagle flight 4817 this past Saturday toward the end of its flight from Indianapolis to La Guardia is still unfolding. However it appears that this was not just another case of a rowdy or drunk passenger getting enraged over masks, but — as of Sunday morning — some kind of security issue. That's why the plane stopped far away from the terminal; why passengers were all quickly evacuated; and why a number of law enforcement personnel including the FBI immediately boarded the plane after the evacuation and took the passenger away in handcuffs.

We're not going to try to define "security" in this instance since, again, the story is still unfolding at this writing. Some press reports said after the incident had occurred passengers overheard the word "bomb" used late during the flight — even though it is unimaginable that current US security techniques wouldn't catch such devices in the screening that goes on of passengers, carry-ons, and all checked luggage.

The important point here is that security aboard aircraft is everyone's business, including all passengers. If you see or hear something that is somehow out of place, report it to a member of the flight crew at once — never hesitate. It is far better for them to have a report that turns out to be nothing than get no report about something that turns out to be serious. Airline flight crews and security personnel know exactly how to handle passengers who may do things that are not allowed aboard aircraft — but first they need to know it's happening.

11. Why We Moved Our "Guide to Entry Requirements" Onto our SXM Facebook Site

Once something is published in *SXM Weekly News*, the next step for it is to be put into our archives. People were also printing our Guide to Entry Requirements and saving them for later use — a bad idea since Entry Requirements can change literally at a moments notice.

When Entry Requirements change, we update the information in our Guide. We then communicate the fact that a change has occurred on the main discussion page of our [Everything SXM Facebook Group](#). *People who are going through the process of applying for preapproval to visit SXM are best advised to refer to our Guide to Entry Requirements in the Files area of our Facebook group when they are going through the process. Since Entry Requirements can change, it is never a wise idea to refer to something you printed or saved on your own computer or among your own valuable papers. That information could be wrong at the time you refer to it.*

That is why we moved the information from *SXM Weekly News* to the Files area of our [Everything SXM Facebook Group](#).

As we repeatedly say in that group: *For ACCURATE answers to all Entry Requirements / returning to US requirements questions, see our complete GUIDE TO ENTRY REQTS in the FILES area of our FB SXM site. FILES are here: facebook.com/groups/mysxm/files. Use the SEARCH window for "Entry". The Guide has JUST been updated.*

12. Keep Reconfirming Your Flights on Your Airline's Portal...

US airlines continue to work to staff up to meet the flight crew needs of the increasing numbers of flights they have scheduled for this fall and winter. They are also continuing to return some mothballed aircraft to service. Both of these processes are complex, and in the middle of all this the airlines are seeing inconsistent and sometimes opposing steering currents in the marketplace. The desire to travel is high, and among fully vaccinated people that desire wins out. But people simultaneously are concerned about the Delta variant and other variants that may play a role in travel decision-making.

Consequently, it is wise to keep rechecking your flights on your airline's portal to be sure there have been no changes in flight times or days. If you have connections, those can be impacted by flight changes. We suggest you do this every week to be sure the itinerary you think you have is your actual final itinerary.

WEATHER:

13. Saharan Dust, Volcanic Ash Create Haze -- But Will They Inhibit Hurricanes?

You may not have heard about it, but the Las Palms volcano in the Canary Islands has been erupting for the last couple of weeks and tradewinds have brought some ash from it — along with Saharan dust — to the Caribbean, including SXM. Saharan dust does wind up in the Caribbean occasionally and volcanic ash occurs as well but far less frequently. The two together create a haze that can temporarily be bothersome to some people with breathing difficulties but they tend to disappear quickly.

Normal weather patterns during rainy season, which this is (with brief showers), help clear out some of the haze. Usually Saharan dust only lasts a few days and the presence of volcanic ash depends on weather conditions between the Canary Islands and the Caribbean as well as on the volcano itself.

Local forecasts will provide updates on this -- and any notices we receive from the island governments will be published in our [Everything SXM Facebook Group](#) — and in fact a government advisory issued toward the end of last week on this topic was immediately published in our Everything SXM Facebook Group near the end of the week.

Saharan dust and dry air both inhibit the development of hurricanes. One would assume that a combination of Saharan dust and volcanic ash could do the same. As we reported here last week, within about a week or so an upward motion of the Madden Julian oscillation (which we have also previously explained here) could normally cause an increase in tropical cyclone development in the Atlantic, where such an upward pulse is expected to happen in about a week.

Although we imagine the Saharan dust and the volcanic ash may counteract the pulse, we really don't know. As always, we'll continue to keep a close watch on tropical cyclone development until hurricane season ends at the end of November. Tropical Outlooks as well as watches and warnings related to SXM and to areas with airports in the US that are gateways to SXM will continue to be published in our [Everything SXM Facebook Group](#).

14. Further Hurricane Names Still a Mystery

The last hurricane name on the national hurricane center's list of hurricane names for 2021 is Wanda, and there are no further names on the list. The national hurricane center has said that once its list of 2021 hurricane names has been exhausted, it will issue a new list for this year — it will not use the Greek alphabet as it has in the past. To our knowledge the national hurricane center has not released further names for 2021; as soon as it does, we will post them in the Weather section of our www.everythingsxm.com main SXM website. We will also publish those names here in *SXM Weekly News* and also in our [Everything SXM Facebook Group](#). We have not yet seen the names.

15. See Our Online Weather / Hurricane Center for the Latest Tropical Forecasts / Developments

Our newly updated **weather/hurricane center** at www.everythingsxm.com delivers current forecasts for up to six storms simultaneously, and it provides all the latest watches and warnings for all storms as well as satellite images, radar images, and radar loops.

Whenever anything happens that may directly impact SXM, you'll see it covered in near real time in our [Everything SXM Facebook Group](#). If the island is threatened at any time by any major tropical weather systems, we will also send a bulletin to all of our **JMB Website Supporters Island Discount Program** members advising them of that situation.

We also highly recommend that if you live on the US East or Gulf Coast or in the Canadian Maritimes or in SXM, you seriously consider subscribing to Rob Lightbown's remarkably inexpensive custom weather forecasting service which gives you a heads up on what's happening in the tropics as it affects you personally, your business, your home, and your travels. Although our site (our weather center) tells you a lot, we are journalists and not meteorologists — Rob is a seasoned meteorologist and his direct reports will be highly useful to you for planning how to react when a storm is approaching your area.

We also strongly recommend you always listen to local authorities for any dangerous weather systems that may be approaching your area. Rob's site is www.crownweather.com and it discusses tropical storms, hurricanes, tornadoes, and much more — the best site we know of for key weather information when you really need it.

16. Hurricane Supplies Checklist

If you live or work in any area that is ever faced with any disaster — hurricanes, floods, wildfires, blizzards, etc. — you need to be prepared. The following list was prepared by Florida disaster officials and it is very comprehensive, including many things you may not have thought of. Not everything it lists may be appropriate for everyone, but much that is listed here is very important for most people.

[This document](#) is a downloadable Adobe Acrobat PDF; just click the link and you will have the downloaded Hurricane Supplies Checklist, which you should save and also print out for immediate reference and use.

17. Reminder: About Our New Daily Tropical Outlooks

Effective several weeks ago, we started posting daily Tropical Outlooks in our [Jeff Berger's Everything SXM Facebook group](#) at some point during each day. If some tropical activity is underway, our posts will generally be happening in the evening or frequently through the day. But if nothing is going on, our Tropical Outlooks from the National Hurricane Center may be posted at any time during the day.

We are also making sure that significant information is posted every day in the weather center of our main website, [everythingSXM.com](#), as we've noted in this issue. It's hurricane season.

18. Where to Find Current SXM Weather Info

You'll find detailed observations and forecasts by visiting our main SXM website, [www.everythingsxm.com](#).

Here are four more sources of current weather info:

- 1) [Crown Weather Services](#) whose very inexpensive subscription service is, we feel, the best in the business.
- 2) Our "Weather" page at [www.everythingsxm.com](#) -- it has current satellite images and radar loops and now all the latest NHC weather forecasts, outlooks, and advisories as well. There are now also active weather widgets on the site's home page.
- 3) Our [Everything SXM Facebook Group](#), which publishes the latest advisories, watches, and warnings when SXM is threatened by any storms.
- 4) **On or off the island, listen to Island 92** -- 91.9FM or see [www.island92.com](#). They report island warnings at once and know exactly what's going on. You can listen on the web anytime through live streaming.
- 5) For a quick look at weather radar exactly where you are or where you're going, try the My Radar phone app or My Radar for Windows -- excellent programs.

Get a quick, current satellite look at the Atlantic basin anytime: <http://www.goes.noaa.gov/GIFS/ATWV.JPG> .

N. B.: *Again...Never rely on any website if you're in the path of a storm; always heed warnings from local authorities.*

You can get it right here: [click to download](#).

Or read this:

Years ago, before we were all saturated with weather information from cable TV to local (redundant and repetitive) news and forecasts plus weather updates and bulletins on our smart phones, gas stations and television stations offered printed hurricane tracking charts so people at home could try to figure out for themselves whether they were about to get slammed by the latest hurricane.

We haven't seen hurricane tracking chart handouts for years, but if you want one they are easy to get. The exact charts used by the National Hurricane Center (NHC) are now available for download from the NHC [here](#). Select "Atlantic" and you're good to go. You can print out the chart and use it repeatedly, or simply print a bunch of them and use one for each storm that may approach an area of interest -- like SXM. You might want to print a few of these now and *not* save doing that for later.

SECTION 2: Accommodations: Hotels, Resorts, Timeshares, Villas Etc

24. Accommodations Demand Surges as Covid Wanes; Hundreds of Timeshares Are Available

Although the Covid Pandemic is not yet over, experts are saying that all of the indicators are pointing in the right direction. Taking that as a cue, lovers of SXM are now making reservations for near-term travel through year's end and beyond into next winter. Hotels and timeshares are benefiting as are Villa owners.

If you're looking for places to stay, check our Sponsors list below; it includes several of the top timeshare resorts on SXM as well as a number of high-rated villas. If you're specifically interested in renting a timeshare directly from the timeshare owner, see our main site, www.everythingsxm.com and click on the timeshare rentals link in the navigation bar for hundreds of timeshares now available for this year and through the coming winter and beyond.

25. Expect Higher Prices for Holiday Vacations

If you're just starting to look at making Villa reservations for the November and December holidays, you may have a rude awakening ahead: demand is very high and prices are higher than they were just a few weeks ago.

As we said in the previous article, there are a number of different types of accommodations you might want to examine if the villa you want has already been spoken for or if you feel the price of it is out of touch with reality. We also suggest you contact the realtors/vacation rental companies that are in our Sponsors list below in this edition of *SXM Weekly News*; they are highly qualified companies with a spectrum of available properties that may still be able to meet your needs. Just act quickly — this is shaping up to be the busiest year in recent memory in SXM and there is a lot of competition for the available units.

26. Unique Last-Minute Penthouse Rental Opportunity in Early Nov.

RENTAL 11/6/2021 11/13/2021 45 Simpson Bay Resort and Marina Sleeps 8! Oceanfront penthouse with 2 King bedrooms and 2 full baths. Large living room with 2 Murphy beds, large dining room area and full kitchen. Huge balcony that includes a private Hot Tub!! Walking distance to supermarket and lots of great restaurants, bars and casino! We can't go due to last minute surgery so.. discounted drastically! \$1,500 Tammy 917-929-7783 Tammy143@aol.com

We normally publish ads like this only in the timeshare rentals page at www.everythingsxm.com. But this one offers lots of space in a gorgeous penthouse for short money and can accommodate an extended family or four couples, making it

dirt cheap per couple. Won't last -- give it a shot....

27. Condo Sales Continue Through the Roof - Who to Contact

See the Realtors in our Sponsors list below; they are the most qualified to help you learn more about and acquire a condo on SXM that meets your specific needs. Also see the story immediately below about BrightPath #Caribbean, a company that can help enormously with required paperwork. They know what they're doing.

28. Buying a Condo in SXM: Important Procedural Help

A while ago, working with Arun Jagtiani of Island Real Estate Team, we put together and conducted an SXM Relocation Seminar for dozens of attentive attendees at Emilio's Restaurant at the Emilio Wilson estate near Philipsburg.

Many of you have asked whether it would be possible for you to see video we made of our relocation seminar.

Although we do intend to put on future relocation seminars, the video of our November '18 seminar is available online to anyone interested in buying on SXM, whether for a vacation home, retirement home, income property, or anything else. Lots of outstanding info was communicated during this excellent seminar, and another is now in the early planning stages.

See the video [here](#).

Please check this link to [BrightPath SXM](#), a company that can help provide very deep and expeditious help in completing residency requirements for people buying a second home, income property, or a new business in SXM, or relocating there. They're located in the Puerta del Sol building opposite Avantika, Simpson Bay, Dutch side. Ask for Vivian Chamas and let her know you heard about BrightPath through Jeff Berger's *SXM Weekly News*.

29. How To Rent Out Or Sell Your Timeshare Units

If you own timeshare weeks that you would like to rent out or sell on our main everythingSXM.com website, you can do it once you become a member of our JMB Website Supporters island discount program. For all the details, go to our main site, everythingSXM.com and click on timeshare rentals in the navigation bar. You'll find the details about posting there. 33. Will Saharan Dust and Volcanic Ash Inhibit Hurricane Formation?

In case you missed it, see this covered in story 13 in the Weather section of this week's *SXM Weekly News*.

34. Restaurateurs, Returning from Annual Closings, Sprucing Up Restaurants

For many SXM restaurateurs, an important part of the annual closing each fall is the opportunity to make needed changes in the restaurant. Whether it is cosmetic changes, new furniture, or entirely re-imagining and replacing the kitchen, SXM restaurateurs spend a lot of time working hard to make their establishments better than ever upon reopening.

SXM has long been regarded as the culinary capital of the Caribbean. At one point, that distinction was solely for Grand Case, but today it is a distinction justifiably credited to the entire island, since there are extraordinary restaurants throughout Simpson Bay, the Cupecoy beach area, oyster pond/Dawn beach, Maho, and elsewhere across the island -- not just Grand Case.

If you are thinking about bringing an ice chest filled with meat and cooking your way through your vacation, we urge you to give yourself a break and allow the world-class chefs who have gravitated to St. Maarten over the last 20 plus years to show you what it's really all about. They are culinary artists whose many awards speak for themselves -- including a number of Culinary Awards of Excellence from our own Everything SXM group. Many of SXM's finest restaurants are listed in the sponsors section below -- don't miss the opportunity to learn how they've become the subject of attention from around the world.

35. Voyager On The Mend

Voyager, the sleek fast ferry that connects SXM and St. Barth from ferry terminals in Marigot and Gustavia, has been unavailable over the last couple of weeks as it underwent some needed maintenance. That maintenance has now been completed and this week, the ferry will be undergoing sea trials, *SXM Weekly News* has learned exclusively directly from Voyager staff.

Once Voyager has successfully completed its sea trials, it will again be back in service and will start accepting reservations. We will post the information about Voyager's return to service both here in *SXM Weekly News* and in our [Everything SXM Facebook Group](#).

36. Repeat: Make Thanksgiving Reservations Now

Thanksgiving week and Christmas week are two of the busiest weeks of the year, and the week between Christmas and New Year's — culminating in fireworks on New Year's Eve — is the busiest week of the year, with tens of thousands of tourists on the island and lots of yachts and megayachts and private jets here transporting a spectrum of business and entertainment notables to both SXM and to our neighboring island St. Barth, where the owners or renters of some private estates put on private fireworks displays for their guests.

You don't have to be a billionaire or a millionaire to enjoy SXM for Thanksgiving. Many restaurants provide full Thanksgiving dinners with all the trimmings/fixings, including delicious roasted turkey, potatoes, squash, vegetables, carrots, and a slew of freshly baked pies — not to mention lots of cranberry sauce.

Perhaps the most famous Thanksgiving feast of all on SXM is the one that has been served as far back as most people can remember at Toppers long-time location near Kimsha beach. That changes this year:

Thanksgiving 2021 marks the first time that Toppers Thanksgiving feast will be served at the restaurant's new location at the carousel in Simpson Bay. If you plan to go, make your reservations soon. Topper hails from Massachusetts, where Thanksgiving began with settlers having a then-traditional harvest-related dinner with a number of Native American indigenous people who had lived in the area for many hundreds of years. Make your reservations now at your favorite SXM restaurants. If you're not sure where to dine, ask questions in our [Everything SXM Facebook Group](#) which can give you outstanding guidance.

37. World's Largest Cruise Ship Visits SXM

From *The Daily Herald*:

The world's largest cruise ship was at the Port of Philipsburg Tuesday.

Even though it wasn't her first come to SXM, the ship Symphony of the Seas made a strong impression yesterday with a length of 362 metres and a width of 47 metres.

The Symphony of the Seas is a cruise ship of Royal Caribbean Cruise Line, built at the ex-Atlantique STX France Saint-Nazaire between October 2015 and March 2018. It has 18 bridges and has nearly 9,000 passengers and crew capacity. Due to the COVID-19 pandemic, it is navigating to a maximum occupancy of 60%.

The Symphony of the Seas has many attractions with 24 metre zipline, climbing walls, surf simulators (FlowRider), 11 pools, water slides, natural park (Central Park), minigolf, ice rink, carousel, etc. theaters including 1 water outside.

The many attractions and entertainment on board did not prevent passengers from landing to discover Saint-Martin. Buses filled with visitors left the harbor Tuesday for the island tour.

38. Restaurant of the Week: Toppers

Toppers Restaurant relocated from its traditional spot near the Kimsha beach portion of Simpson Bay beach several months ago to all-new facilities at the Carousel. In fact, the restaurant itself is now located in the same building that formerly housed the carousel itself, which was donated by Topper to SXM Airport.

Toppers is difficult to describe because it has so many great home-cooking recipes. Lots of sandwiches and salads are available for lunch while steak, prime rib, chicken dishes, and their world-famous lobster are all sold at night, along with many delicious salads. Dessert choices include their famous rum cake which we strongly recommend, though if you have a couple of their delicious rum cakes we strongly suggest you find somebody else to do the driving.

The setting is gorgeous, literally on Simpson Bay lagoon where tradewinds are constant. Toppers restaurant is co-located with the Toppers rum distillery, which you can tour while sampling many rum flavors and buying great souvenirs in their souvenir shop.

As if that weren't enough, they also have an authentic Italian Gelateria on the property offering a slew of different flavors

and dozens of toppings. All the ice cream is fresh and delicious and made right there, and there usually are sugar-free choices as well.

You might want to have lunch here, schedule yourself for a distillery tour after lunch, then stick around for dinner, rum cake, and karaoke.

Get to Toppers -- it's a great take and an absolutely unique vacation destination -- restaurant/rum distillery /Gelateria.

Oh, one other thing: they are by far the busiest restaurant on the island for Thanksgiving, normally serving hundreds of people from before noon until late at night. Thanksgiving or any other holidays are not to be missed at Toppers thanks to their special menus. Advance reservations are essential.

39. Key Differences Between SkyMed Short-Term & Annual Memberships

Many people who buy SkyMed memberships first request short-term protection. Is that the best solution for most people? That's a decision you have to make, but before you do, we wanted to give you a little information about SkyMed's types of memberships so you can get a better feel for exactly what is offered.

First, short-term memberships are available only for a specific defined short term. They protect you with SkyMed Takes You Home® membership that applies throughout the United States, Canada, Mexico, Bermuda, the Bahamas, and all the nations of the Caribbean including Cuba. Short-term protection cannot be upgraded or renewed since you buy it for specific trip; it's temporary protection. There is no waiting period for any benefits. When you want protection for a future trip, you must make a separate application for it. It is economical if you seldom travel and if you take brief trips. The cost is \$9/day per person, or a maximum of \$15 a day per family (parents and kids).

We always tell people who are 50 or over about the most important advantages of SkyMed annual and multiyear memberships. We feel the single most important benefit is that SkyMed annual and multiyear memberships are guaranteed renewable, regardless of advancing age or declining health. Details are in SkyMed's Member Services Agreement. We currently have members who are still traveling and are in their upper 80s and 90s.

The cost of annual memberships per family — far more economical than the \$15/day per family for short-term coverage -- is only about \$1.35/day total. Multiyear memberships are even less expensive and have more features; contact me and I can send you full information about features of each type of SkyMed membership. Ultimate memberships protect you worldwide. I can answer all your questions by phone in a matter of minutes, and we can also conveniently take your application by phone. Phone us any day at 508-747-8281 during daily business hours, 9am to 8pm. That's a direct line to Jeff Berger's office.

40. Where & When SkyMed Protects You

Basic SkyMed short-term and annual memberships protect you throughout the USA, Canada, Mexico, Bermuda, the Bahamas, and all the nations of the #Caribbean In that SkyMed universe, SkyMed *Takes You Home*® when you become critically ill or injured. Optional protection covering most of the rest of the world is provided by GETS, Global Emergency Transportation Services, a SkyMed company.

For much more SkyMed information please see a few of SkyMed-related articles that appear later in this issue.

42. Think About Where You're Going & About This:

TRAVELING *ANYWHERE* THIS SUMMER? SkyMed TAKES YOU HOME® when you become critically ill or injured when traveling anywhere in the USA, Canada, Mexico, Bermuda, the Bahamas, or all the nations in the #Caribbean (Global protection is also available.)

So if you're traveling to SXM -- or anywhere else -- in the next few months, get SKYMED Medical evacuation membership FIRST: It could easily save you \$35,000 -- the approx. cash cost of an emergency medical evacuation YOU MUST PAY IN CASH IN ADVANCE should you become seriously or critically ill or injured on SXM -- or anywhere else -- and need to get home.

The SkyMed Difference: SkyMed members pay only the small cost of membership, currently under \$1.35/day on an annual basis -- but you must get SkyMed BEFORE you need it, like fire insurance. CALL JEFF FOR INFO OR TO SIGN UP: 508-747-8281 (8am-8pm EDT). Or email him at jeff.berger@skymed.com.

43. Join Our New Conversational Everything SXM Group on MeWe, the Facebook Alternative

For years, you have been able to obtain a great deal of SXM information and photos/videos in our [Everything SXM Facebook Group](#). Unfortunately, not everyone is a fan of Facebook, so we have started a new Everything SXM group on a platform that has become a strong competitor Facebook — it is called MeWe.

We urge all fans of *SXM Weekly News* to become members of MeWe and join our group there; [here is the link](#).

44. Going Home? Check Your State's Return Policies

It's essential for visitors returning home to the US to know their home state's policies and procedures for passengers returning from overseas flights well before they head to the airport.

We suggest at least a couple of weeks before your return date that you visit your state's main web portal to see exactly what its requirements are regarding Covid. Some states may require a negative test be taken X number of hours before your return flight; others may require some degree of quarantine, and others may require nothing.

The US REQUIRES Covid tests for everyone returning there from SXM. Details are in our Guide to Entry Requirements, published early in this issue of *SXM Weekly News*. Ask about testing locations on SXM that you can use — to do that, go to our [Everything SXM Facebook Group](#). Please do not ask questions there about your state's requirements — our group is SXM centric and will not accept such posts. Your state's web portal is certainly the best source of current, accurate information about requirements related to returning international passengers.

45. First Responders Now Get Platinum-Status JMB Discounts

If you're U. S. Military with a DD214, you're able to get a Platinum-Status Military JMB Membership for \$16.99/year, the lowest we ever charge anyone. You get instant Platinum Status which is permanent as long as you're a JMB member plus 300+ SXM discounts and other benefits. All you do is pay for four years to start and renew in four-year increments (\$67.96). Nobody else pays so little -- our small way of expressing how grateful we all are for your service.

And now we're adding police, firefighters, EMTs, and nurses to our just-renamed Military / First Responder Memberships in recognition of their sacrifices for the rest of us every single day. We just need you to send us documentary proof (ID) that you're one of America's very best. To sign up or upgrade your JMB membership to Military / First Responders, visit [everythingxsm.com](#) and click the page curl to sign up for your JMB military membership (the page still says Military). We'll also need a DD214 (or other police / fire / nursing ID) with your SS# obliterated for security. We'll be delighted to welcome you all to our new best-of-all JMB Website Supporters Platinum Memberships.

46. SkyMed Q&A / FAQ - Frequently Asked Questions

SkyMed® FREQUENTLY ASKED QUESTIONS

Answers to Common Questions

This document contains general SkyMed information in answer to common questions. SkyMed's services are defined by its Member Services Agreements – plain English documents that tell you what you get and how it works (see much more info below). As always, SkyMed offers a 30-day “Free Look period,” so if for any reason you're not satisfied with your unused SkyMed protection before 30 days have expired, SkyMed will refund your money.

Q1. Does it cover my trip to...?

1. Basic short-term and annual “SkyMed Takes You Home®” protection applies throughout the USA (all 50 states), Canada, Mexico, Bermuda, the Bahamas, and all the nations of the #Caribbean Global Emergency Travel Services (G.E.T.S., a subsidiary of SkyMed) protection is available outside the USA, CANADA, MEXICO, BAHAMAS, BERMUDA, and the CARIBBEAN (the rest of the world), however neither SkyMed nor G.E.T.S. covers trips to nations on the U. S. State Department's then-current “Do Not Travel” list – North Korea, Iran, and Venezuela currently, for example, and several others. Before planning a trip, check that list if you have any question about whether protection is provided for your destination – or call SkyMed directly during normal office hours (Mountain Standard Time) at 480 946 5188 or 1-800-475-9633.

Q2. Who is protected?

1. “Single” protection is available for individual travelers. “Family” protection includes your spouse or domestic partner and your young children up to 18 or 24 if they are full time students.

Q3. Do I need to call SkyMed before traveling outside my home country?

1. If you're traveling during the normal high season for travel to your destination, no. If you're traveling to your destination during its low season, do call SkyMed Member Services at the 800 number in the first question and let them know.

Q4. What if I'm going to a country not listed above in question 1?

1. Then you'll need (G.E.T.S) protection. If you have one of our Ultimate multiyear memberships, (G.E.T.S.) protection is included. On Annual (one-year) memberships, “G.E.T.S.” protection is an inexpensive option.

Q5. What's the difference between “short term” and “Annual” or multi-year protection?

1. Short-Term protection is intended for brief trips, say a week or two. Like Annual protection, it “Takes You Home®” to doctors and hospitals you know and trust when you suffer a serious or critical illness or injury while traveling. Preexisting medical conditions are covered from day one with the short-term plan. It's inexpensive, only \$15/day for family protection. Remember, though, that Annual and Multi-year Ultimate memberships cost much less – only about \$1.35/day for family plans. Plus, they're guaranteed renewable without regard to

advancing age or declining health. If you get a short-term plan, once it has expired, it is done, and you must reapply and requalify for another when you next travel. With Annual and multiyear Ultimate memberships, all you need do is renew before the renewal deadline – no need to reapply unless your membership has lapsed and the grace period has ended.

Q6. Is there an age limit for applications?

1. There is no age limit to apply. There's no age limit on renewals, either.

Q7. Can you cancel my protection at a certain age or if I get really sick?

1. Annual and multi-year Ultimate memberships are guaranteed renewable, as noted above. They will not be canceled simply because you're a certain age or because your health has changed.

Q8. Will you raise the price of my membership at a certain age or if I get sick?

1. Once you're a SkyMed member, at renewal time you'll pay the same low renewal fees that everyone else with your type of membership pays. If you join at age 75 or older and purchase the X-Pat plan because you live in Mexico, the Bahamas, Bermuda, or the #Caribbean, the X-Pat plan is more expensive than the standard traditional (Annual or multiyear Ultimate) plan.

Q9. What exactly does SkyMed cover? Is it health insurance?

1. You'll find an overview of all key SkyMed Features & Benefits here:
<http://www.everythingsxm.com/sxmweeklynews/SkyMedServices.pdf>

This is the same list you'll find on the back of our current membership applications. SkyMed provides up to 18 benefits related to medical evacuation if you suffer a serious or critical illness or injury while traveling. It is not health insurance – in the "SkyMed universe," SkyMed *Takes You Home*® to doctors and hospitals you know and trust, where your health insurance works.

Q10. What about pre-existing conditions? Are they covered?

1. Yes: for short-term memberships, medevac protection (including items listed in the answer to Q9, above) is included for critical illnesses or injuries related to pre-existing and non-pre-existing conditions. For Annual and multiyear Ultimate memberships, pre-existing conditions are covered after a brief 90-day waiting period.

Q11. I want guaranteed renewable protection because of my age, but I'm going on a trip sooner than 90 days. What can we do about that?

1. Get our inexpensive short-term membership to cover your near-term trip, including medical evacuations for serious or critical illnesses or injuries due to pre-existing conditions. At the same time, apply for an Annual or Ultimate membership, to kick in once your near-term trip ends.

Q12. I'm not traveling for a while. When should I apply?

1. Get SkyMed before you need it – just like fire insurance. Since you don't know when you'll need it – and since health can change in a heartbeat thanks to falls, accidents, or other issues – it's always better to do it sooner rather than later. Beyond that, if you have pre-existing conditions and get SkyMed Annual or multiyear Ultimate medevac protection now, that 90-day exclusion period for pre-existing conditions protection may well be finished by the time you travel.

Q13. What kind of questions do you ask in your application? Do you send somebody to do a medical exam?

1. There's no medical exam. Our application is simple, asking about hospitalizations in the last six months, your current medical conditions, and your prescriptions – and on the prescriptions, all we need is their name, not dosage info. If you have a complex medical history, SkyMed may ask for a "HQ" (health questionnaire) to be completed by your doctor and submitted to SkyMed by fax. You should also have your passport number handy; we record it so it's there in case you need help outside your home country.

Q14. How long does it take before I hear whether I'm accepted?

1. Generally just a few business days, but it's always best to do your application early to ensure sufficient time for processing.

Q15. I have more questions. Where do I find the answers?

1. SkyMed Ambassador Jeff Berger, located in Massachusetts, will be happy to answer your questions. Call his private line at 508-747-8281.

Q16. Can I sign up online?

1. For fastest results, we always suggest you contact us directly. We've done thousands of applications and can whisk you through the process in minimal time and with minimal bother. To get additional information first and see some customer stories, check our site, www.skymed.com/jmb. But to sign up, always call 508-747-8281. The process normally takes about 10 minutes, if that.

Q17. Who can get SkyMed?

1. SkyMed is available to residents of the USA and Canada, and to X-Pats living in the countries listed in Q1. X-Pat protection is necessary if you live outside the US or Canada for six months or more, in aggregate, in any 12-month period. Always notify SkyMed if you move.

Q18. I have a rather deep medical history. Will SkyMed still accept me?

1. Although SkyMed accepts the vast majority of applications, others do get health questionnaires (see Q13) and occasionally some do not qualify. There is no cost to apply if your membership application cannot be accepted. A history of a heart attack or cancer several years ago or other maladies does not automatically signal any issues for SkyMed. Apply – there is nothing to lose (again, no charge if you're not accepted). And as we noted in Q6 there is no age limit to apply and no age limit to renew.
