Stories are numbered; scroll down for stories of interest.

SECTION 1: Getting Here: Flights, Airlines, Airports, Cruises, Covid, & Weather, Etc.

GETTING HERE:

1. Record Number of Cruise Passengers Visits SXM in One Day: Over 30,000 (Heads Up)

This is to draw your attention to this story, #30 in this edition...

2. Airport Stays Very Busy on Saturdays -- But on All Days, Get There 3 Hours Ahead of Flight Time

In SXM, it's the height of high season -- one of the busiest times of the year. The busiest day at SXM Airport is Saturday — but regardless of that, it is prudent to be at the airport three hours ahead of your flight time seven days a week. On Saturdays, three hours is essential, but on the other days it's wise: at the end of the day, it is better to be an hour and a half early rather than one minute late, and processing times to the airport can vary greatly for many reasons.

3. Reminder: SXM Has No Covid Entry Requirements

SXM's Covid entry requirements were discontinued effective November 1. There is no reason to expect any similar requirements to be reinstated.

4. MEDICAL EVACUATION COSTS SOAR; Got \$45,000++? You May Need It, In Cash in Advance, to Get a Medevac Jet Home in a Medical Emergency

\$45,000 or more payable in cash in advance could be what you must pay out-of-pocket should you need emergency medical evacuation while traveling anywhere in the USA, Canada, Mexico, Bermuda, the Bahamas, or anywhere in the Caribbean. By contrast, SkyMed *Takes You Home*® for zero dollars when you become critically ill or injured in any of those countries *if you are a SkyMed member. All it takes is one phone call and SkyMed does everything. That \$45,000 you might have to spend without SkyMed assumes that you can make all the arrangements, find and hire the jet, make sure it is properly outfitted for the specific medical problems you face, staff it with appropriate medical professionals who are cleared to travel back home to the US or Canada, and take care of customs, immigration, and loads of other paperwork including Ambulances and getting your records to your Destination hospital.* By contrast, SkyMed does all of that and its members pay \$0 for the evacuation or ambulances related to it.

Setting up medical evacuations sounds complicated because it is and having to do all this in a medical emergency is a daunting task for anyone who has never done it. For about \$1.64/day for an annual or multiyear SkyMed membership. SkyMed will do all of this stuff once you make that single quick phone call.

For more information, call us today at 508-591-3483 or Jeff.Berger@skymed.com. Include your phone number and time zone so we can call back and get all your questions answered. We can also take your application by phone in roughly 10 minutes.

5. What To Do If Your Flight is Canceled or Delayed...

What should you do if your flight is canceled or delayed as happens fairly often now due to weather or staffing shortages?

This [article](#) gives you answers.

Etc./Weather

6. Sunnier Weather Appears

Right on cue, the sunnier climate that generally starts taking hold in mid-January appears to have arrived. Tropical showers will still happen through the next several months, but generally speaking they will become less frequent and less wet as the months go on, as we move into dry season. The lush grass seen now throughout much of the island normally turns brown in the next couple of months after the rainy season has ended.

Enjoy the St. Maarten sun!

Get your SKYMED MEMBERSHIP *BEFORE* you need it. Air ambulances are now more costly than ever: when you become seriously or critically ill or injured while traveling, SKYMED TAKES YOU HOME® to doctors and hospitals you know & trust. Otherwise you must pay tens of thousands of dollars in cash in advance to get a medevac jet -- if you can even do it (NOT easy or fast if you don't know how). SkyMed annual or multiyear memberships are only about \$1.64/day, and they're guaranteed renewable regardless of age or medical condition at renewal and they are PRICE GUARANTEED FOR LIFE. Why wait? CALL today 508-591-3483 or email us at jeff.berger@skymed.com; include your callback number & time zone please. Protect your family TODAY with SkyMed®!

7. Nighttime Temp Plummets to 74: Hats, Jackets Appear on Some Locals

The Caribbean version of Midwinter weather has now appeared in SXM. On a recent night, the temperature plummeted to a bone-chilling 74°, and scattered hats and jackets began to appear on some less hardy locals. In fact, Some downtown souvenir shopkeepers reported selling a few extra sweatshirts — mostly to locals.

It's not so extreme that tourists need sweaters or even long-sleeve shirts or long pants, but we wanted you to know. Daytime temperatures, instead of hitting 88 as they had been for some time, were down to a "freezing" 85 or so.

Just thought you'd want to know.

8. Where to Find The Latest SXM Weather Information

Although hurricane season officially begins June 1, nonetheless it's best to be prepared before then. In recent years, tropical activity has begun around mid-May. Stay in touch with any or all of these sources of tropical weather information...

Here are SIX sources of current SXM weather info:

- 1) [Crown Weather Services](#) whose very inexpensive subscription service is, we feel, the best in the business.
- 2) Our "[Weather Center / Hurricane Center](#)" at www.everythingsxm.com -- it has current satellite images and radar loops 24/7/365 and now all the latest NHC weather forecasts, outlooks, and advisories as well. There are now also active weather widgets on the site's home page. *That page also includes real-time or near-real-time satellite images and radar loops.*
- 3) Our [Everything SXM Facebook Group](#) publishes the latest advisories, watches, and warnings when SXM is threatened by any storms.
- 4) **On or off the island, listen to Island 92** -- 91.9FM or see www.island92.com. They report island warnings at once so you'll know exactly what's going on. You can listen on the web anytime through live streaming.
- 5) For a quick look at weather radar exactly where you are or where you're going, try the My Radar phone app or My Radar for Windows -- excellent programs.
- 6) Get a quick, current satellite look at the Atlantic basin anytime: <http://www.goes.noaa.gov/GIFS/ATWV.JPG> .

N. B.: *Again...Never rely on any website if you're in the path of a storm; always heed warnings from local authorities.*

In addition, when storms form or pass near SXM, we expect to run the latest forecasts, watches, warnings, and observations in our [Everything SXM Facebook Group](#), and we will post all of that material directly in the weather center of our everything SXM website, www.everythingsxm.com.

9. Establish Residency FIRST if You're Buying a Condo or Villa in

Despite the somewhat curious global economy, sales of condominiums here in SXM continue to roll ahead.

If you plan to buy an SXM condo and spend several months a year here, it is to your advantage to establish residency early. With 10 years of experience, BrightPath Caribbean has the knowledge, expertise, and infrastructure to help you do that with the minimum inconvenience and minimum time spent shepherding the process.

In other words, they know their stuff, they know the latest wrinkles in the law, and they can simplify and expedite the process for you. 10. For SXM Condo Buyers, Some Critically Important Advice

Moving to the Caribbean requires a multi-step procedure that involves different citizenship programs. 11. Buying a Condo in SXM: Important Procedural Help

A while ago, working with Arun Jagtiani of Island Real Estate Team, we put together and conducted an SXM Relocation Seminar for dozens of attentive attendees at Emilio's Restaurant at the Emilio Wilson estate near Philipsburg.

Many of you have asked whether it would be possible for you to see video we made of our relocation seminar.

Although we do intend to put on future relocation seminars, the video of our November '18 seminar is available online to anyone interested in buying on SXM, whether for a vacation home, retirement home, income property, or anything else. Lots of outstanding info was communicated during this excellent seminar, and another is now in the early planning stages.

See the video [here](#). (Link is being updated).

Please check this link to [BrightPath Caribbean SXM](#), a company that can help provide very deep and expeditious help in completing residency requirements for people buying a second home, income property, or a new business in SXM, or relocating there. They're located in the Puerta del Sol building opposite Avantika, Simpson Bay, Dutch side. Tell them you heard about BrightPath through Jeff Berger's *SXM Weekly News*.

You'll find an overview of all SkyMed Services [here](#), and you'll find Frequently Asked Questions [here](#).

- **WHAT ARE "ULTIMATES"?**

- **When and Where SkyMed Protects You:**

Basic SkyMed short-term and annual memberships protect you throughout the USA, Canada, Mexico, Bermuda, the Bahamas, and all the nations of the Caribbean. In that SkyMed universe, SkyMed *Takes You Home*® when you become critically ill or injured. Optional protection covering most of the rest of the world is provided by GETS, Global Emergency Travel Services, a SkyMed company.

- **Key Differences Between SkyMed Short-Term & Annual or Ultimate Memberships:**

Many people who buy SkyMed memberships first request short-term protection. Is that the best solution for most people? That's a decision you have to make, but before you do, here's some important info. **First, short-term memberships are the most expensive product SkyMed sells on a per-day basis: \$15/day.** They're available only for a specific defined short term. They protect you with SkyMed *Takes You Home*® membership that applies throughout the United States, Canada, Mexico, Bermuda, the Bahamas, and all the nations of the Caribbean including Cuba. Short-term protection cannot be upgraded or renewed since you buy it for a specific trip; it's temporary protection. There is no waiting period for benefits. When you want protection for another future trip, you must make a separate application for it and qualify again. **Although at \$15/day per couple SkyMed short-term protection is the most expensive product SkyMed sells on a cost-per-day basis,** short-term protection is economical if you seldom travel and take very brief trips. The cost is \$9/day per individual, or a maximum of \$15 a day per family (parents and kids 21 or younger). **We always tell people who are 50 or over about the most important advantages of SkyMed annual and multiyear memberships. The single most important benefit is that SkyMed annual and multiyear memberships are guaranteed renewable, regardless of advancing age or declining health.** Details are in SkyMed's Member Service Agreement (MSA). We currently have members who are still traveling and are in their upper 80s and 90s. **The cost of annual memberships per family is far more economical than the \$15/day per family for short-term coverage -- it's now only about \$1.64/day total.** Multiyear memberships also have more features; contact me for full information about features of each type of SkyMed membership. **Ultimate memberships protect you worldwide.** I can answer all your questions by phone in minutes, and can also take your application by phone (that way I get credit and **you pay my unique low Association rates. not available online at SkyMed's website; there you pay retail**). Phone anytime at 508-591-3483 (NEW NUMBER). That's a direct line to Jeff Berger that also accepts text messages. Updated 1/8/23.

***What is the SkyMed Ultimate?**

Again, the Ultimate is SkyMed's best - and least expensive (on a daily cost basis) form of medical evacuation membership. With SkyMed "Takes You Home"® services in the USA, Canada, Mexico, Bermuda, the Bahamas, and all the nations of the Caribbean, plus Global Emergency Travel Services (GETS) almost everywhere else worldwide, the Ultimate is for people who visit Europe, Africa, Asia, and almost anywhere else your wanderlust takes you. It also delivers 18 critically important travel-related services as opposed to 12 with SkyMed annual memberships. **You'll find an overview of all SkyMed Services including those provided with Ultimate memberships [here](#).**

24. Answering Your Questions: What Exactly Does SkyMed Do? --- from Jeff Berger

We've always said SkyMed TAKES YOU HOME® when you become critically ill or injured -- home to doctors and hospitals you know and trust, and home where your health insurance works. ***In recent weeks as many of you have decided to resume traveling, you've asked us for examples of what SkyMed does.*** Several examples are right here:

For answers to questions or to sign up, email me at jeff.berger@skymed.com or call me at 508-591-3483. Open to Americans & Canadians & xPats only. Based in Scottsdale, Arizona, for the last 33+ years, SkyMed TAKES YOU HOME® when you become critically ill or injured while traveling anywhere in the USA, Canada, Mexico, Bermuda, the Bahamas, or all the nations of the Caribbean. Global protection is available. Cost for family membership is as little as \$1.64/day on annual and multiyear plans. IMPORTANT: Buy directly through me; our pricing for multiyear memberships is much lower than SkyMed's retail pricing published on the web.

Here are specific examples of how SkyMed works for its members:

On a recent Thursday at Mullet Bay Beach, a woman at the edge of the water fell and accidentally knocked down her friend, standing close by. The friend felt pain in her leg as she got up, went to a hospital, and was told she had a "soft tissue injury" and should relax in the sun. Pain continued. Next day she went to the Maho Clinic for another opinion since she couldn't put any weight on the leg without pain. The doctor there sent her to the French Side for a new x-ray. That diagnosis came back - broken leg and she had to be medically evacuated back to the US for surgery. A few days before, the woman had bought short-term SkyMed medevac protection for her short trip to SXM. Cost, under \$100. She was sent home by jet by SkyMed. The charge for the jet: \$0. Without SkyMed, had she needed a medevac jet, the \$26,000 (approx.) price of that jet home would have had to be paid in cash in advance; with SkyMed she was home and in the hospital of her choice the next day for \$0 out-of-pocket.

Mary Beth and her partner Don were vacationing in SXM when Don fell and broke his hip -- only about a month after they had bought SkyMed. SkyMed flew them home on a medevac jet for the hospital care he needed. Flight cost to the patient: \$0. Savings: over \$35,000.

An MD from Florida who always visits SXM was on a cruise vacation to the Greek Islands with his wife when he broke his femur aboard the ship. He was rushed to the hospital in Corfu but called SkyMed which arranged and paid for an emergency medevac flight to Athens for urgent surgery. A few days later SkyMed evacuated him again, with an excellent male nurse, all the way home to Florida, where an ambulance took him home for recovery. Required flight cost to the patient: \$0. Savings: huge.

A Summer trip ended in disaster when a child visiting her grandmother in Grand Case was bitten in the head by the grandmother's bulldog, imperiling the girl's eyesight. She was flown to Miami in a medical evacuation jet for emergency eye surgery that saved her sight. Flight cost to the patient: \$0.

A woman from Virginia shopped at an island grocer and headed back to her car carrying two bags of groceries. She tripped and fell on a curb and knew at once she had fractured her hip. After being stabilized locally, she was flown home on a medical evacuation jet from SkyMed where she had the surgery she needed. Flight cost to the patient: \$0.

Two men were riding their horses on a hill in Cay Bay when a car backfiring spooked one of the horses, which threw its rider. The other rider got off his horse to check his companion when the car again backfired, spooking the horse again which led it to kick its dismounted driver in the head, luckily causing "only" a severely dislocated jaw. The local hospital had no ability to solve that problem so the victim was airlifted by SkyMed back to Pennsylvania for surgery. Flight cost to the patient: \$0.

A member of the clergy fell down cement stairs and broke her leg. She too was airlifted home by SkyMed for surgery. Flight cost to the patient: \$0.

Not all trips end well: anything can happen when you travel. Being a member of SkyMed was the common thread in all these cases. SkyMed takes its members home when serious or critical injuries occur in the "SkyMed universe", usually in a private, ICU-equivalent medical evacuation jet -- home to doctors and hospitals the patient knows and trusts -- and home where their health insurance works. That's just one of up to 18 benefits received by SkyMed members for about \$1.64/day for annual or multiyear memberships.

All this is why we always recommend SkyMed. Call Jeff Berger 24/7 at 508-591-3483 and leave your name, phone number, and time zone. Jeff will call back at a mutually convenient time and answer all your questions. He can also take your application by phone in about 10 minutes. *You're eligible to apply regardless of your age or health if you are a U.S. or Canadian citizen or an American or Canadian ExPat living in SXM or certain other countries.*

Anything can happen anywhere: Do it now, BEFORE YOU NEED IT. To learn more, visit www.skymed.com/jmb. JMB members get big discounts off SkyMed's online pricing for all multiyear memberships, the BEST memberships for most people age 50 or over. More contact info is above.

Thanks for reading this.

25. Going to Europe Next Summer? ONE QUICK REASON to Buy Your SkyMed Ultimate NOW:

Literally millions of people from the US and Canada are planning to go to Europe next summer, as the surge in pleasure travel continues. This article is short and sweet — so here goes another critically important reason to get SKYMED for your summer European trip now: **pre-existing conditions coverage for SkyMed Ultimate global memberships begins 90 days after the membership starts; coverage for all other illnesses or injuries begins right away. So, if you buy your membership more than 90 days ahead of your date of European travel, that 90 day period of coverage exclusion for pre-existing conditions will be over about the time your trip begins.**

Equally important, when you join SkyMed directly through us you pay our low Association rates — far lower than the retail rates you will find on the SkyMed website. Call today for more information about SkyMed: 508-591-3483 or email us at jeff.berger@skymed.com. Either way, be sure to tell us your return phone number and your time zone. Available to Americans, Canadians, and ex-pats only.

26. About 90 Members & Guests Hear Stunning News at SXM SkyMed Luncheon from SkyMed Exec Chris Durgin..

The approximately 90 SkyMed members and guests who attended our SkyMed Member Appreciation Event last Friday at Simpson Bay Resort's main ballroom heard some rather stunning news from SkyMed executive Chris Durgin, VP of SkyMed's Southeast region which includes all of the Caribbean and much of the US. During his brief presentation — a reminder of services for SkyMed members and a glimpse of the unique offerings of SkyMed to nonmembers in attendance — Chris noted that **the leading cause of bankruptcy among seniors was medical bankruptcy.**

Part of the problem is that very expensive emergency medical evacuations are not covered by traditional health insurance — and credit card evacuation programs offered by airlines typically say they will "take you home or to the nearest appropriate facility at our option," *which means they will either take you nowhere and leave you where you are, or they will take you to some facility that is far from your actual home.* Either way, you are up the proverbial creek

without a paddle.

By contrast, **SkyMed TAKES YOU HOME®** when you become seriously or critically ill or injured anywhere in the USA, Canada, Mexico, Bermuda, the Bahamas, or the entire Caribbean. In the rest of the world, medical evacuation is also possible through our Ultimate memberships when medically necessary. SkyMed took one American home a few years ago from St. Petersburg Russia at a cost to SkyMed of \$105,000, paid entirely by SkyMed; for that trip the SkyMed member paid nothing. Some helicopter evacuations can cost hundreds of thousands of dollars, and those medical evacuations can wipe out your savings. Medical evacuations are typically payable in cash in advance in the middle of an emergency. By contrast, you make one call to SkyMed and they make all the arrangements and pay all the bills. *You pay nothing.*

If you haven't become a member of SkyMed yet, contact us today and get tremendous peace of mind wherever you travel: jeff.berger@skymed.com or 508-591-3483. Let us know your return phone number and your time zone. Americans, Canadians, and xPats only. .

27. Minor Quake Rattles SXM Friday Morning

Many people around SXM became all shook up early Friday morning when a minor earthquake hit in the vicinity of Guadalupe. It was first reported as a 6.2 magnitude quake, later changed to 5.8. Not everyone felt it, but many did; it apparently caused no damage or injuries on SXM.

The Caribbean does experience occasional events like this.

28. Dutch Side Government Moving to End Mullet Bay's 28-year Period of Non-Development

Until September 1995, when vicious hurricane Luis destroyed it, Mullet Bay Beach Resort was the centerpiece of tourism on the island, hosting numerous large business conferences for overseas companies, weddings, many special events, golf tournaments, and more. It had many more guests than a number of other resorts on the island combined. Its lavish casino was the focal point of gambling for all of SXM. It was all destroyed by Luis.

For several years following Luis, some buildings at Mullet Bay Beach Resort laid in ruins, subject to vandalism and fires. A number of years ago, most remaining buildings were finally demolished. Since then, thanks in part to land ownership disputes, this prime real estate, many hundreds of acres in size including the golf course, has sat undeveloped.

Now, it appears that the government at long last has had enough and wants to do something to get the property developed: at least we all hope so. The popular beach, one of the favorites on the Dutch side, would be preserved as a public beach and access to it would be vastly improved according to the plan; see more information about it [here](#).

The road into the beach is in bad shape and the parking lot is in atrocious shape and is vastly inadequate in terms of size. We would expect that all of that will change when the property is eventually fully redeveloped.

29. Government Officials Visit Philipsburg With Intent to Fix Some Issues There

As we have written on multiple occasions during the last several weeks, Philipsburg has structural issues, including some streetlights that don't work, obstructed sidewalks (often from illegally parked cars), sidewalks in disrepair, and a number of additional issues. With tens of thousands of cruise ship tourists descending on Philipsburg during this resurgent year of tourism, Philipsburg needs work now. The Dutch side government has expressed recognition of these problems and is now hopefully moving toward fixing them. That story is [here](#).

30. Record Number of Cruise Passengers Visits SXM in One Day: Over 30,000

One day last week, a record number of cruise passengers visited SXM flooding the island with tour buses loaded with people who looked like they badly needed tans. Most other days weren't bad either, since so many ships were usually in port. As is often the case when multiple ships are in port, Front Street was blocked off so it could act as a welcoming pedestrian mall for the incoming crowds.

Here is [the full story](#).

31. Incredibly Lucky SXM Fisherman Owes His Life to Ketchup

This is a story that could well wind up as a made-for-TV movie. A French side marine mechanic was working on a boat in the water near Marigot when somehow the boat started drifting away. The mechanic tried everything he could think of to draw attention to himself but he drifted off into the Caribbean Sea: it was a harrowing story indeed.

He made it out alive thanks in large measure to ketchup. See [the full story](#) here. The story has one error: this harrowing misadventure started on St. Martin, not St. Maarten.

32. Why Widening The Drawbridge Channel for Megayachts Could Adversely Affect Tourism in SXM

SXM's new tourism Minister Arthur Lambriex appeared to have said earlier this week that he wanted to widen the drawbridge channel in Simpson Bay to enable larger megayachts and giga yachts to enter the lagoon. That created a hullabaloo, particularly from environmentalists who said that it would further endanger the environmentally fragile lagoon ecosystem. Others were more blunt, saying that it would cause irreversible pollution in the lagoon.

He later backtracked, saying that what he meant was that the control house, whacked once again recently by an errant megayacht going through the channel, should be moved "further back".

Regardless of what he meant, it appears that his intent is to encourage more megayachts and supermegayachts to dock in the lagoon. In an article on this in the *Daily Herald*, one thing astonished us: there was not one single sentence about mitigating traffic jams caused by the drawbridge throughout Simpson Bay.

The increasing numbers of yachts slowly gliding into Simpson Bay lagoon multiple times a day routinely cause gridlock of an infrastructure that has not changed significantly in the last 20 years or more. We talked with a leading government Minister years ago about possibly building a tunnel in between Welfare Road and Airport Road to eliminate this problem, but he told us that the enormous cost made that option impractical at the time.

Regardless of whether the channel is widened or the control house moved, the net effect of adding more yacht traffic in and out of the lagoon will be to aggravate road traffic throughout Simpson Bay. That would be an enormously hard pill for stayover tourists to swallow — and they are the backbone of the St. Maarten economy, a large plurality of whom stay in Simpson Bay at the many timeshare resorts there.

Stayover tourists have had to deal with a lot over many years — the Caravanserai/Alegria debacle, the current Towers at Mullet Bay debacle, the lack of timeshare owner consumer protection legislation with teeth, and the current attention to the possibility of allowing more yachts into the lagoon when it is crowded already, thereby aggravating traffic ... all this gives stayover tourists a lot to deal with. As government officials have already said, roads need improvements, traffic flow needs improvement, more attention is being paid to develop the port in Philipsburg — *but nobody seems to be paying attention to the plight of stayover tourists who as we already said are the backbone of the island's economy*. They have always come back after hurricanes and are fiercely loyal — but the limits of that loyalty should not be tested. More attention needs to be paid to the needs of stayover tourists to keep them coming.

If widening the drawbridge channel happens without traffic mitigation, our humble opinion is it will have a significant negative impact on island tourism because traffic was not properly addressed.

Please see the next story, which is related.

33. Solving SXM's Ongoing Traffic Problems

As anyone who drives on the Dutch side will attest, SXM has traffic issues — most of them centered either around the lagoon or on "the hill" when there are accidents. *SXM Weekly News* is written by journalists, not traffic engineers. Nevertheless, it appears to us that the intelligent minds that rearranged traffic a number of years ago in Cole Bay should be commissioned to do it again but with a wider perspective — working to improve traffic flow around the entire lagoon from the causeway south, including "the hill" and its intersection with Cole Bay.

At the very least, it seems to us that traffic monitoring cameras should be set up on the hill, where a number of serious

accidents have happened in recent months that caused gridlock all the way to Maho. If a two way radio equipped police operated tow truck were located at the scenic overlook on the hill, it could be directed to photograph if necessary and remove disabled vehicles so they are out of the way before they can create gridlock.

In addition, traffic engineers should be employed to leverage existing infrastructure around the lagoon to mitigate the traffic that waits for megayachts multiple times daily. Bridge closures for marine traffic cause jams that last from 3 PM until 7 PM every day. Alternative routes can be developed using current infrastructure so drivers are directed to avoid congested areas to get to their destination. It's not rocket science and would not involve millions of dollars in construction costs.

Before SXM can create an entirely new comprehensive promotional program to bring in more tourists, it needs to enhance the product it is offering. ***This article and the one above are presented as helpful information that may contribute to a discussion about how to make that product better.***

34. Do You Buy Jewelry/Gemstones? Here is a Primer on The Topic (First in a Series)

The Why & How of Gemstones -- by Rikita Budhrani, Caribbean Gems, Philipsburg (first in a series)

THE WHY AND THE HOW:

BUYING GEMSTONES IN JEWELRY

Copyright ©, Caribbean Gems, 2023. World rights reserved.

Gemstones, a majority of which are crystalline form, are prized natural creations valued internationally for their rarity, beauty and durability in jewelry-wearing.

Gemstones have been traded since as early as 1,600 B.C., specifically precious gemstones - such as emerald, ruby and sapphire. Ancient Greeks imported these precious stones first followed by pearls and amethyst from India. The word 'amethyst' comes from the Greek word 'amethystos' meaning 'sober' - during a time which this stunning purple stone supposedly saved them from inebriation. Jade was one of the earliest stones also valued for luck and prosperity, first mined in the stone age, and later a symbol of prosperity and power in 3,000 B.C. China. The references and records indicate that buying gemstones are indeed an investment, as these objects have sustained the passage of time as the most respected signs of wealth and nobility to-date.

So what makes each gemstone unique and valuable? You want to look for 1. Luster which is the shining brilliance 2. Durability which is the functionality in jewelry 3. rarity which directly influences price and 4. cut which references the finesse and perfection of machining after mining.

The global journey of gemstones historically has some great stories. To start, in the world of gemstones, some things remained fairly stable for centuries. Benvenuto Cellini, a renowned Italian Renaissance goldsmith of the 16th century, wrote in his memoirs that ruby was considered the most valuable of all gems.

Cellini's list of gemstone valuation compares favorably to our "big four" gems of today, which are ruby, emerald, diamond and sapphire. But even these rankings are a closely fought thing. Emeralds and rubies have vied with each other for the top spot throughout the 20th century, trading place several times.

Even earlier than that, The great traveler and merchant Marco Polo, took advantage of the fact that gemstones are easy to transport. About 650 years ago when Marco Polo along with his uncle returned to Venice during 1295, were not recognized wearing their voyage clothes as they had spent many years in distant lands almost forgetting their mother tongue. The Polo gentlemen invited their relatives to a sumptuous feast, where they changed into expensive fabrics after each course, and they divided the garments removed from themselves among the servants. After the feast, when the servants departed, Messere Marco brought from the room three cloaks bearing the marks of a long journey, in which they returned to Venice.

With a sharp knife he cut the seams and the eyes of those gathered saw huge rubies, sapphires, grenades, diamonds and emeralds which were so cleverly hidden, that travelers wouldn't even lose them if they were attacked by bandits. After leaving the service of the Great Emperor of China, they exchanged their gold for the most valuable precious stones, as it would be a difficult task to transport large amounts of gold overland over such distances.

With such a steady interest and appeal in gemstones over the centuries, today St. Maarten in the Caribbean is known as the place to buy your gemstones, with experienced sellers and the most competitive pricing. Why shop on St. Maarten? It's duty free, tax free thus ensuring the best deals and the island is also known for the friendliest service - most popular of all is a family business of the last 40 years, Caribbean Gems - loved by many around the world.

So how do we approach the purchase process? The four Cs of gemstones are: clarity, color, carat weight and cut and became recognized until in the early 1940s.

Gemologists usually describe gem color by referring to three properties: hue, tone, and saturation.

When most people describe colors, they probably mean hue. The basic hues are red, orange, yellow, green, blue, violet, and purple. Black, white, and brown refer to tones and saturation, not hues.

--- A gem's tone refers to a gem's relative lightness or darkness. Black and white are tones, from darkest to lightest.

--- A gem's saturation refers to the intensity of its hue. Colors can be strong or soft. Pink is desaturated red. Warm colors, like red and orange, become shades of brown as their saturation decreases.

For colored gemstones, generally speaking, highest values go to stones with pure hues and strong, rich colors. With high-value gems, subtle variations make a significant difference in gem grading and price.

For example, a slightly orangish ruby won't be worth nearly as much as a pure red. Most people can't see the difference. To an expert grader, however, it makes a significant difference.

Gemstones contain a wide variety of inclusions. In faceted gems, inclusions are defined as anything that will interfere with the free passage of light. These can include little bits of minerals, hollow areas, and fractures.

Clarity grading addresses the visual and structural impact of these things. When gem grading most colored stones, gemologists simply note whether a gem is "eye-clean" (with inclusions invisible to the naked eye) or else slightly, moderately, or heavily included. Eye-visible inclusions always lower a gem's value, but the change isn't applied equally.

A gemstone's cut, the workmanship that went into fashioning it, is one of the most important factors in gem grading. It has a tremendous effect on a gem's appearance. The cut is also one of the most difficult qualities for the non-professional to judge, due to the variations involved. Nevertheless, consumers can conduct some basic examinations. First, look at the shape of the stone. Of course, some gem cutters carve gems into beautiful "freeform" shapes. Most gems, however, are intended to have regular shapes. If this is what you're looking for, look at the symmetry. Does it bulge or is it symmetrical in all directions? Look at the stone from the side and ends. Again, it should be symmetrical in all directions. When comparing similar stones, judge the overall light return. Let's say you examine two similar gems of the same size and color. If you find one has much more brilliance and sparkle, you're seeing the impact of cutting.

Simply put, larger stones are less common than smaller ones. Hence, they often demand a higher price per carat. Whether you were Egyptian Queen Cleopatra or Kim Kardashian today, the value of your gemstones hold true for generations to come - and the spot for you to stop by now is Caribbean Gems, at 22 and 40 Front Street - two convenient locations in Philipsburg.

Go on in. Explore. Ask questions. Indulge. Invest.

35. Air France 498 Does "Touch & Go" at SXM Airport

It was unusual to see a big Air France A330 jet take off early from SXM Airport toward the mountains one day last week -- but it actually didn't happen. Instead, it was a nixed landing (a "touch and go") under which a plane attempting to land instead guns the engines and goes around again to try landing a second time. You will see it on video [here](#).
